## MAY FORM PUCK SQUAD IN KELOWNA DISTRICT

KELOWNA, B.C., Nov. 24.—Efforts to form a Kelowna hockey team are being made by Harold Johnston, well-known local sportsman, and Ed. Neff, who was a star in Calgary some years back. Last year, a scratch sextette was banded together, and one or two games were played, although the team was handicapped by lack of players.

Several new prairie stick-handlers are reported to have arrived in Kelowna for the winter season, and provided sufficient ice is obtained, a good season of hockey is in store for the local fans.

It is some years since Kelowna has had a strong hockey club, because of the general lack of ice. Plans are being formulated in an endeavor to transform the boxia rink into a hockey and ice skating rink.

## Vegetable Growers Express Confidence In Manager, Future

Oliver Organization To Carry On Operations Next Season

OLIVER, B.C., Nov. 22.—Complete confidence in their manager, their directors, and the ultimate success in their association, was expressed at a recent general meeting of the Southern Okanagan Co-operative Vegetable Growers Association.

Members also agreed to carry on their operations next season, although there will be a loss of a very few members who are dissatisfied with the deal this year and desire to withdraw.

Method of next year's operations has not yet been determined, but the association will either do their own packing or contract with one of the local packing houses for handling the entire crop. This year the crop went through no less than five packing houses, and this was the cause of considerable confusion and difficulty in checking.

Already the association has received and is considering an offer from one of the local packing houses to pack the entire crop of the vegetable growers next season. Directors of the vegetable growers association feel there is much misunderstanding on the part of the public as to the operations of the vegetable growers this year, and their so-called "failure."

The chief reason for smaller returns to the vegetable grower this year as compared with last year, states Manager N. Nye, is the lower price for vegetables as set by the Vegetable Board. This, of course, was beyond control of the Oliver growers. Also, states Mr. Nye, packing and general handling charges as well as sales commissions were higher than last year. On top of all this, states Mr. Nye further, many errors occurred in the returns from the packing houses to the vegetable growers association.

During the last six weeks Mr. Nye has been checking their errors and trying to trace crates of cantaloupes, tomatoes, etc., of which he has a record of the local packing houses, but of which the packing houses have hitherto not accounted for.

This checking over of accounts, says Mr. Nye, has to date resulted in the vegetable growers association being credited with the returns of \$1500, and the checking is not yet completed.

Mr. Nye points out that in comparing prices for tomatoes, cucumbers and other products, he can show that the vegetable association paid as high or higher figures than local packing houses over the same marketing period, in many instances.

According to Mr. Nye, even under the best of conditions, with packing charges no higher than last year's prices paid for this year's vegetable crop would not be greater than 10 percent more than was actually paid because of the lower prices set by the Vegetable Board.

## GRINDROD NOTES

GRINDROD, B.C., Nov. 22.—Mr. and Mrs. A. Tomkinson and W. Tomkinson left on Thursday on a trip to Vancouver.

"Red" Rothwell came in from Vancouver on Saturday to stay at the Rothwell farm here for a few weeks.

Mrs. W. G. Peacock came home on Saturday from Nanaimo after visiting relatives there for the past three months.

Cliff Wheeler of Malakwa, spent the week end with Grindrod friends. Miss Marjory Salt, of Spring Bend, is spending the winter at the W. Monk farm.

The opening dance in the hall drew a splendid crowd, who were all loud in their praise of the improved hall.

Miss Louise Crandall returned to her home here from Sicamous where she has been employed nursing for the past three weeks.

## ARMSTRONG'S CURLERS PREPARE FOR SEASON

ARMSTRONG, B.C., Nov. 22.—At the general meeting of the Armstrong Curling Club, held in the Curling Rink waiting rooms on Thursday afternoon, November 18, the following mentioned officers were elected: President, J. H. Wilson; 1st Vice-President, W. A. Cuthbert; 2nd Vice-President, F. L. Sugden; Secretary-Treasurer, R. M. Ecclestone; Committee, H. Brown, M. S. Hassen, and G. A. Smith. The officers and the committee to form the club executive, W. A. Cuthbert and R. J. Garner were appointed a membership committee. A report submitted to the meeting showed that the current taxes on the rink had been taken care of and that \$80 on account of principal and interest had been paid on the outstanding note, leaving a balance of \$100 on the note.

It was decided to hold a supper meeting in the Armstrong Hotel after the membership committee's report was received. The meeting will be open to anyone choosing to attend and will be held about the first week in December, and skips for the ensuing season will be chosen.

## CHRISTIE PARKER IS ACQUITTED BY JURY

Sordid Case Before Assize Court Here Is Held "In Camera"

A twelve-man Assize Court jury late on Tuesday evening returned a verdict of not guilty in the case of Christie Parker, middle aged Indian of the Okanagan reserve No. 1, charged with incest.

Owing to the sordid nature of the case, sessions of the court were held "in camera" throughout the trial, which lasted more than a day and a half.

Mr. Justice A. I. Fisher, the presiding judge, immediately ordered Parker released from custody, after the jury had given its verdict.

The charge involved Parker's 14-year-old daughter, Edna Parker, who gave birth to a son in the Jubilee Hospital last August 9.

The defense counsel, W. B. Bredin, of Kelowna, placed Parker in the witness stand on Tuesday afternoon, and the latter gave a point-blank denial of allegations made by the Crown.

He and his wife had been married in the Roman Catholic Church in 1919, Parker testified in answer to Mr. Bredin's questions. He had lived fairly happily for several years, but latterly trouble had come between them.

His wife had told him on several occasions that "she didn't want me around the house," he testified. He also added that he had known of infidelities on Mrs. Parker's part, but had not attempted to do anything about it. It was Mrs. Parker who laid the information that led to the man's arrest last August.

Without any charge against him, Parker declared that Edna has been his favorite since she was a small child. Cross-examined by the crown prosecutor, C. W. Morrow, he absolutely denied taking his daughter to an abandoned house near Okanagan Landing and threatening her with an open knife if she did not yield to him.

The most important witness for the crown was the girl, Edna Parker. She related a series of statements where she charged her father had forced her, and she definitely named him as the father of her child.

Evidently a factor that weighed heavily with the jury in its hour's deliberation before returning a verdict of acquittal, was Mr. Bredin's address. He particularly stressed the fact that the girl's evidence was not corroborated as regards incidents connected with her relations with her father. Parker had given a point-blank denial of the charge, he further pointed out. There were other circumstances that cast reflection on the girl's evidence and this, he submitted, made it difficult for the jury to eliminate reasonable doubt from their minds in upholding the Crown's charge that Parker was the culprit.

## SCHOOL BUS TENDERS FOR SPALLUMCHEEN AWARDED BY TRUSTEE

ARMSTRONG, B.C., Nov. 24.—It is reported by the Spallumcheen School Trustee, that the contracts for the transportation of school children on the routes for which tenders had been called for had been given out as follows: Grandview route, J. D. Smith, \$10 per day; Knob Hill route, W. H. Caesar, \$7.90 per day; Hullcar route, W. A. Smith, \$9.00 per day.

These figures are considerably below the original tenders and show a saving of \$400 per year on the figures first submitted.

A meeting was held with the contractors when Mr. Matheson stated that he would offer them a basic payment of \$450 per day for every authorized school day, this would take care of all their fixed charges and he estimated that their actual travelling expenses could be based on 40 cents per mile and if they would agree to accept these terms he would be willing to sign the contracts. Mr. Matheson's offer was accepted by the contractors and the agreements signed on that basis.

## FARMER INJURED AFTER BEING KICKED BY BULL

PEACHLAND, B.C., Nov. 20.—W. Goldham is making satisfactory progress in the Penitentiary Hospital where he was taken after being kicked in the eye by a bull.

Mr. Goldham was in the act of de-horning the animal and when the bull stooped to pick them up and was kicked in the right eye.

Although the wound is a ugly one, no damage has been done to the eye according to reports received.

## BOARD MEMBER GIVES VIEWS ON PORT ISSUE

Inspection Of Loading Is Subject Discussed At Meeting Here

The question of port inspection of fruit loading and handling at New Westminster and Vancouver was raised at the meeting of the B.C. F.G.A. local in this city on Tuesday afternoon.

O. W. Hembling, member of the B.C. Fruit Board, who recently presented a report in which he recorded his satisfaction with the nature of the inspection so far this year, and Capt. J. C. Keenan, who took exception to this report in an article printed in last week's issue of The Vernon News, were both speakers at the meeting.

Capt. Keenan's chief complaint was that an appointee of the Dairy and Cold Storage Branch now carries out this inspection, whereas in the preceding two seasons R. W. Tate, of this city, who has the qualifications of having been a fruit grower, a fruit inspector, and a deep-sea mariner, was the port inspector. In his first season Mr. Tate was retained by the Export Board whereas last year the B.C. Fruit Board hired him.

Mr. Hembling, in the course of his remarks on Tuesday afternoon, said that he was fully in agreement with those who wished to have Mr. Tate's services continued. He produced considerable correspondence showing that he had himself written to a number of prominent officials highly commending Mr. Tate's work and suggesting that, if it were possible, he should be continued.

The 1937 arrangement had been made with the Dairy and Cold Storage Branch, however, to superintend the loading and handling of fruit in ships, in both Atlantic and Pacific ports.

"You must remember," said Mr. Hembling, "that before we secured this port inspection, the Pacific Coast was usually more satisfactory than the Atlantic loading. It is just as important for us to ensure inspection on the Atlantic end for we ship as much and more fruit that way. Hence when we had the choice between hiring our own man for just one our man, the Pacific Coast and New Westminster, or, on the other hand, of having the Dairy and Cold Storage Branch serve our purpose at both the Atlantic and Pacific seaboard, we felt justified in assenting to the latter idea."

Mr. Hembling added that, when he visited the Pacific Coast recently, he noted that the inspection was proceeding satisfactorily, and hence he issued his report. There was ways the difficulty of keeping an eye on every worker, he realized, for once every so often a worker gets careless and does something he should not. This, however, being checked up on very carefully. "You must remember," he declared, "that we have the very same problem right here in our packing houses."

Capt. Keenan, when called on to speak by the chairman, P. V. LeGuin, stated that there was little more to add to what he had stated in the article in The Vernon News last week.

"It is not a matter for the government, but for ourselves as fruit growers," he said. "We will find out, in time, that the change in the plan is not to our advantage, and meanwhile we pay the penalty, though the government pays the cost. It's my suggestion that we hire and fire our own man and make sure of getting a satisfactory job done."

In reply Mr. Hembling said that the new appointee was apparently attending carefully to all the duties requested by the fruit growers.

"What is the saving by having the government man do it?" asked W. H. Baumbrough.

Mr. Hembling replied that Mr. Tate had been retained for his seasonal duties at \$800. Last year this was paid by the B.C. Fruit Board, and in the preceding year by the Export Board.

Mr. LeGuin offered the suggestion that the Fruit Board be asked to handle the work, on behalf of the Dairy and Cold Storage Branch. "I think," he said, "that at least a fruit inspector should be employed in that category."

He added that Mr. Tate had saved the fruit growers thousands of dollars as a result of his competent work. There had been times when a ship was not going to load a car of fruit on a certain day and was going to let it stand on the docks.

## LUMBY GIRL BITTEN SEVERELY BY DOG

Anna Quesnel Rushed To Vernon To Receive Medical Treatment

LUMBY, B.C., Nov. 23.—On Friday little Anna Quesnel, the daughter of Mr. and Mrs. Wilfred Quesnel, was badly bitten by a dog while she was sleighing down Church Street with a number of other kiddies, and had to be rushed to Vernon to have the wounds stitched.

E. Proctor, of Vernon, who runs the Vernon-Edgewood bus during the summer months, has started operating a daily bus service between Vernon and Lumby with return each day, and an after-theatre return late on Saturdays.

Mr. and Mrs. Gus Matlaks, of Squaw Valley, and their little daughter, Marilyn, are holidaying at the Coast.

Signal Co. is closing down full operations on their timber limits at Squaw Valley for a couple of months.

The box lacrosse club gave a most enjoyable dance on Friday evening in the Community Hall. The sweaters which were raffled and donated by Mrs. A. E. Gynne, was won by Miss Barbara Morris.

Some days previous to her wedding, which took place on Saturday, Miss Laure Quesnel was the guest of honor at a shower held at the home of Mr. and Mrs. Skermer. A large crowd was present, spending an enjoyable social afternoon. The bride elect was the recipient of numerous beautiful and useful gifts, testifying to her popularity.

Mrs. Sideleau arrived on Monday and took up residence once more in Lumby in her new home.

## KELOWNA WEDDING OF INTEREST TO VALLEY

KELOWNA, B.C., Nov. 22.—A quiet wedding of wide interest to many throughout the Okanagan was solemnized at St. Michael and All Angels' church, Kelowna, on Tuesday afternoon, November 16, at 2:30 o'clock, when Sylvia Muriel Sutton, daughter of the late Mr. and Mrs. Robert Sutton, became the bride of Kenneth Ian MacLaren, son of Mrs. MacLaren and the late Kenneth MacLaren.

The bride was given in marriage by her uncle, Gordon Sutton, and she chose as her bridesmaid, her aunt, Miss S. Sutton. Miss Valerie Verity was flower girl, dainty in a yellow costume. R.C.M.P. Constable J. Atherton, of Penticton, was best man.

Mr. Tate's actions had often speeded up the procedure and saved the fruit.

"But it is wise to ask for any change until there is something specific we might find wrong in the routine at present adopted?" asked Mr. Hembling.

A million boxes was looked after for an expenditure of \$800, Mr. Baumbrough stated. "That means a \$2,000,000 investment, and the cost of port inspection was small. How much does it work out per box?"

P. E. French agreed that the per box cost was small. "But that's not quite the way to look at it. It's these little things that mount up. The question is, is it the work of the Department or is it the work of the B.C. Fruit Board?"

He suggested that meanwhile it might not be wise to take hasty action until further facts are to hand, indicating the measure of success obtained from the inspection this year.

Mr. LeGuin asked if anyone wished to submit a resolution on the question, and when no action of that kind was forthcoming, the discussion ended.

## PLANNING NEXT YEAR'S CROP...

with the aid of

## ELEPHANT BRAND FERTILIZERS

Assure yourself of next year's crop with a fall application of Elephant Brand Fertilizer. Best applied when the ground is moist, the resulting nitrogen becomes available and is delivered to the roots as the winter's moisture enters the ground. There it remains to be effectively used, even if there is a drought in later spring or summer.

Ask your dealer for information and literature about your requirements of Elephant Brand Fertilizer and plan your next year's crop this year!

## Write for FREE BOOKLET

## Along Canada's Mining Highway

The focus of mining interest in Eastern Canada, is the rapidly unfolding diamond drilling picture on the Barber Larder property, situated to the West of Kerr Addison and to the East of Omega, in the Larder Lake district of Ontario. Barber Larder is conceded in mining circles to give promise of a major mining operation.

R. S. Potter, President and

big owner in Barber Larder, is one of the best known prospectors and developers of mining properties, having entered the North country thirty years ago. Mr. Potter's well warranted success with Barber Larder will assist other mining ventures. He has already announced the reopening of the Lacoma Gold Mining property, in the Province of Quebec.

## MISS LAURE QUESNEL AND FREDERICK WHITE MARRIED AT LUMBY

Roman Catholic Church is Scene Of Ceremony—Many Guests Attend

LUMBY, B.C., Nov. 23.—A wedding of much interest was solemnized in Lumby on Saturday, November 20, at the Roman Catholic Church of the Sacred Heart, when Miss Laure Quesnel, the youngest daughter of Mrs. Quesnel and of the late Alphonse Quesnel, became the bride of Frederick White, the only son of Mr. and Mrs. Robert White, of Oyama. Rev. Father Downey officiated, and the marriage ceremony, and then at the celebration of Holy Mass. The choir, of which Miss Quesnel had been a valued member, gave several beautiful selections.

The bride was given in marriage by her brother, Della Quesnel, and the groom was supported by Gordon Allingham. The ushers were Donald Gallocher and Neville Allingham, of Oyama.

The bride wore a full length ensemble with white tulle and light fitting bodice made on simple lines with an embroidered net veil suspended from her bandeau of orange blossoms. Her bouquet consisted of large pale pink chrysanthemums with fern, the same flowers providing altar decorations.

The bride's sister, Miss Cecile Quesnel, was bridesmaid, and wore a midnight blue satin ensemble on princess lines, with turban of metallic cloth, blue veil, and silver accessories; and carried a bouquet of yellow chrysanthemums and fern. During the signing of the register Mr. Albert Murphy sang, "O Perfect Love."

At the close of the ceremony an informal reception was held at the bride's home, attended by at least 120 guests.

Mrs. Quesnel, mother of the bride, wore a black crepe frock embroidered in a design of black corded silk, with corsage of deep rose carnations. Mrs. Robert White, mother of the groom, wore a full length Alice blue transparent gown with turban to match, and corsage of deep rose carnations.

Among guests from outside points were, Mrs. Hugh Alexander, of Vancouver, sister of the bride; Mr. and Mrs. Denis Godfrey; Mr. and Mrs. A. Smith; Mrs. Allingham; Mr. and Mrs. White, parents of the groom, all of Oyama; and Miss Gertrude Chapin and Miss Joan Foster, of Kelowna; and Rev. Father Bessette, of Kamloops.

During the reception, toasts were given to the happy couple by Rev. Father Downey, of Lumby, and Denis Godfrey, of Oyama; there being suitably responded to by the groom.

The wedding gifts were on display and were much admired, and was also the beautiful four-tiered wedding cake which was cut by the bride.

After the reception Mr. and Mrs. White left for a motor trip to Seattle and point south, the bride wearing a navy blue tailored suit with felt hat in similar tones, and accessories to match.

On their return the couple will make their home at Oyama.

## KELOWNA LIGHT GLOBES COSTLY

KELOWNA, B.C., Nov. 23.—It's an expensive business breaking one of the electric light standard globes on Bernard Avenue.

John Lundin, of Westbank, turning from Richter Street onto Bernard Avenue on Thursday evening, November 11, at about 7:20 o'clock, crashed his car into the first standard, breaking the large globe and the lamps within. The car was undamaged, apart from a broken bumper.

In his report to the Provincial Police, Lundin stated that when he left the stop sign on Richter and started to turn on to Bernard, a light in his rear view mirror attracted his attention, and he hit the standard.

The cost of replacing the globe and lamps amounts to \$84, city officials have stated to the police.

## TRINITY VALLEY HAS HEAVY FALLS OF SNOW

TRINITY VALLEY, B.C., Nov. 20.—Much snow has fallen in the valley within the last week, and for a few days traffic was rather broken up.

At present, however, the snow has settled and cars and trucks are travelling as usual.

The tracks of a bear were seen in the first snow for nearly a mile on the Bobbie Burns Road, the tracks turned south towards Birch Lake. It is most unusual to see "Bruin's" tracks at this season. Jimmy Pollock is back in Trinity Valley from Vernon, having recovered from various injuries sustained in an accident while a passenger on a truck near the Vernon Box Factory.

Rev. J. Brisco held an evening service at the School on Sunday. D. E. Saunders underwent an operation at the Vernon Hospital this week.

## GETS YEAR IN JAIL FOR THEFT OF AUTO

PENTICTON, B.C., Nov. 24.—Saul Winn, charged with stealing a truck, was sentenced to a year's imprisonment here on Tuesday afternoon. The truck in question was used by Winn during a wild ride to the Kaledon flats on Sunday night of last week, during which his wife, Mrs. Isobel Winn, was killed.

## "Roarin" Game Due For Active Season: Committees Formed

Curling Club Does Not Consider Artificial Ice Program Feasible

Expected to be the cause of considerable debate, the question of securing artificial ice accommodation was speedily disposed of at the Vernon Curling Club's annual gathering on Thursday evening in the Burns Hall.

In a short, informal report on this topic, president H. J. Fallow declared that the cost of artificial ice, estimated at some \$6,000 in rough figures, would be prohibitive. Seconding this stand was J. H. Reader, who stated that an outlay of \$11,000 would be necessary. This figure would have to be repaid in less than a decade, owing to the comparatively short life of the pipes, thus meaning a fixed annual carrying charge on the club of over \$2,000.

The members present agreed that it was unnecessary to go into costs in any further detail, and the proposal is therefore abandoned. It was pointed out, too, that the club may secure the sports arena for a week's bonspiel during the winter.

Over forty members and prospective curlers sat down to a dinner, which preceded the regular business sessions. Enthusiasm for the coming season's activities was evident and it is anticipated that last year's record membership of over 100 will be equalled or exceeded.

Five directors were elected to guide the club's course for the ensuing year. A president and vice-president will be nominated from this group. Directors are: H. J. Fallow, Dr. J. E. Harvey, A. C. Liphardt, H. J. Phillips, and Dolph Browne, an enthusiastic follower of the "roarin" game and former president of the large Nelson Curling Club.

A motion of J. E. Montague, seconded by E. G. Sherwood, asked that the five directors of last year be re-elected unanimously, but other nominations were forthcoming, and considerable amiable debate was caused on this point. The final upshot was a ballot on a slate of nine names.

Other committees were named for the 1937-1938 season as follows: Ice committee: Jack Loudon, H. J. Phillips, W. D. McKenzie, Hugh McLachlan, J. Reid.

Entertainment committee: Stuart Martin, J. McL Campbell, J. H. Reader.

Membership committee: E. G. Sherwood, K. E. Egan, Hugh McLachlan, Ivan Crozier, W. Farquharson, Bill Langstaff.

Finance committee: S. Spyer, H. H. Evans, H. G. Greenwood.

Honorary president, A. T. Howe; honorary vice-president, E. J. Chalmers; and honorary secretary, Carl Stevenson, were named secretary, and Mr. Currey will carry on as treasurer.

Starting the season with a bank balance of less than \$1, the club enjoyed a splendid year, and has a handsome cash reserve as well as an up-to-date rink, Mr. Currey's report showed.

The meeting authorized the directors to pay off the \$100 balance owing the Canadian National Railways on the club's lots, before commencing repayment of debentures issued.

A hearty vote of thanks to the past season's executive for the splendid work accomplished was voiced by Dr. J. E. Harvey during the evening.

## LEGION ZONE SMOKER IS GREATLY ENJOYED

ARMSTRONG, B.C., Nov. 23.—The Canadian Legion Zone Smoker, held in the Drill Hall at Armstrong on Friday evening, proved a very successful affair.

Members of the Legion from Kamloops, Salmon Arm, Enderby, Vernon and Kelowna, met with the members of the local branch at the club rooms and headed by the Kelowna Pipe Band marched in a torchlight parade to the Drill Hall, their march along the streets being watched by a large crowd of citizens who lined the route of the march.

Mayor Sugden in a few words extended a welcome to the gathering on behalf of the city and municipality. Conductor Col. F. Barber, of Kamloops, acted as chairman and kept the proceedings going with a swing that added much to the evening's enjoyment. The program of songs and recitations was interspersed with selections by the Pipe Band and the selections were much appreciated by the gathering.

W. I. AT COLDSTREAM RECEIVES NEWS FROM ENGLISH INSTITUTE

Correspondence and photographs from the English Women's Institute of Dorset, England, were displayed at the Coldstream Women's Institute first meeting of the winter season on November 16. Members evidenced keen interest in the news from the English organization.

Many of the Coldstream residents are unable to take advantage of the Union Library service in Vernon, it was pointed out at the gathering. It was decided to write to the library and request a branch be established in the municipality at least for the winter months.

The next meeting will be held on Tuesday, December 7, at the home of Mrs. Alderman.

to-date rink, Mr. Currey's report showed.

## DRAMATIC FESTIVAL FOR YOUNG PEOPLE TO BE HELD FRIDAY

The second annual dramatic festival in the Okanagan Valley, to be presented by the United Church Young People's Union of Kamloops-North Okanagan, is set for Friday night, November 26 in the Recreation Hall, at Armstrong.

Last year four one-act plays were presented, Revelstoke coming first in the awards, winning the silver challenge cup presented by Rev. C. R. McGillivray, at that time pastor of the Revelstoke, Vernon, Armstrong, and two from Salmon Arm. Keen interest is being shown among members of the various Young People's Unions from the four centres entered.

## TO ASK FOR BRIDGE AT GRANDVIEW FLATS

ARMSTRONG, B.C., Nov. 23.—The Spallumcheen Municipal Council, at a special meeting on Monday, decided that application would be made for the overhead bridge to take the place of two railway crossings on the Grandview Flats road, according to the suggestion made by the Board of Railway Commissioners. The decision was unanimous and was made quickly after receiving the information which had been asked as to some points.

The Council are to contribute \$1,000 towards the cost and bear 50 percent of the upkeep of the bridge and the whole cost of the upkeep of the wearing surface. The Council made a recommendation that the roadway of the bridge be coated with asphalt and that local labor be used as far as possible on the work.

Vernon Irrigation District asked for approval for the plan for laying a new metal pipe on the surface of the ground to replace the old submerged wooden pipe from Pleasant Valley road to Kamloops road. The Council, after a careful study of the plan, gave the asked for approval.

## Town and District

Mr. and Mrs. Richard Peters had as their guest for the week end at their home at Okanagan Landing, Mrs. Peters' sister, Mrs. E. Lane, of Victoria.

Major and Mrs. Allan Brooks, of Okanagan Landing, left last week for Comox, Vancouver Island, where they plan to spend the winter months.

Vernon schools will close for the Christmas holidays on Friday, December 17, according to word received by the School Board from Victoria. The re-opening will be on Monday, January 3.

Mr. and Mrs. Russel Neil and their daughter, Suzanne, have returned to this city after a trip to California. They were accompanied on their trip by Mrs. Neil's mother, Mrs. W. Fell.

Col. and Mrs. A. Leslie Coote, of Chilliwack, arrived in the city last week and plan to spend an extended visit with their son-in-law and daughter, Mr. and Mrs. J. E. Leslie.

H. B. Monk, J. S. Monk, T. F. Adams, Jack Blankley, and Vic Allen, of the Vernon Garage, attended a one-day conference of General Motors dealers from valley and interior points in Kelowna on Tuesday. Mr. Allen, foreman of the Vernon Garage mechanical staff, is at present in Kelowna attending a mechanics' school.

Lieut-Commander Conrad Hankey, of the Royal Navy, and Mrs. Hankey left on Friday evening of last week to return to the Old Country after having visited here at the home of Commander Hankey's father, G. A. Hankey. They will sail from New York for England.

T. P. Horrobin, of Vancouver, official court stenographer attached to the Attorney-General's department, is in Vernon during the hearing of the various Assize Court cases. Mr. Horrobin is no stranger to Vernon, having attended court here on numerous occasions in the past.

George McAdams, on the staff of the local branch of the Hudson's Bay Co. for the past two years, left during the week end for Vancouver, having been transferred to the company's Coast branch. Prior to his departure his many friends wished him success in his new position.

A visitor to Vernon last week was Harry Bowman of the Natural Resources Department of the C.N.R. Mr. Bowman has been in charge of the work at Smithers and is very confident that the north country is coming into its own. It is attracting a large number of settlers from the Prairies who are getting out of the dry belt while they have still some resources and they are finding good lands and establishing farms in the Smithers district.

Under the chairmanship of Miss Kay Simmons the magazine and book library sponsored by the B.C. Druggists Association for the patients at the Vernon Jubilee Hospital, is proving most successful and being very much appreciated by the patients. The library is a new undertaking by the Auxiliary this winter. Members of the Auxiliary donate magazines, books, and each week on Monday and Thursday two members serve as librarians and distribute the reading material to the patients. Another service that the Auxiliary has established is the taking home of patients from the Hospital who have cars. In charge of the car service is Mrs. J. E. Montague.

Fred Pahrenhurst and his partner, Joe Peters, captured the first American Tournament held by the B.C. Druggists Association last Sunday. Winners of "A" division were Miss Anna Fulton and Michael McGuire and "B" division, Miss Joan Oliver and Frank Adams. Competition was keen and a good brand of badminton was displayed. In spite of the fact that many of last year's outstanding players have left the city it is felt that the local club has material to make a very good showing in any of the valley tournaments. The first inter-club matches will be played on December 1 when the Vernon team travels to Kelowna. The date for the Inter-Tournament held in Vernon are set for March 2, 4, and 5.

## SHOULD KEEP RECORD OF VARIETIES USED AS GREEN COOKERS

B.C.F.G.A. Local Meeting Approves Point Raised By P. V. LeGuen

That fruit shipped out as green cookers should be accounted for under the variety name, was a recommendation offered by P. V. LeGuen, chairman of the Vernon local of the B.C.F.G.A., in the course of the meeting of the local, held in the Board of Trade room Tuesday afternoon.

O. W. Hembling, member of the B.C. Fruit Board, agreed that there was merit in the suggestion. "Part of the tonnage would seem to be lost track of in that way," he stated.

Statistical information relative to the early varieties is difficult to secure, when a part of the crop of each early variety goes out under no other accounting than "green cookers," Mr. LeGuen argued.

## SWITCH CAR PLUNGES INTO LAKE FROM SLIP

KELOWNA, B.C., Nov. 24.—An accident which might have had more serious consequences occurred on the C.P.R. slip on November 11.

William Sands was the driver of the switch truck, which was pumped by the three empty cars he was pulling. The slip was greasy and slippery from the rain, and the truck did not hold, starting to slide towards the water.

With great presence of mind, Sands jumped from the truck, raced up the empty box car ladder, and threw on the freight car brake, thus preventing the valuable car going overboard as well.

## SOWARD TO SPEAK ON TIMELY THEME

"Behind the Far East Conflict" is the title of an address to be given in this city on Tuesday evening of next week by Professor F. H. Soward, of the University of British Columbia.

The timely nature of the important subject and the reputation enjoyed by the lecturer make this promise of a most interesting discussion at this meeting which has been arranged under the auspices of the local U.B.C. Alumni Association.

Professor Soward, the first speaker to be brought here this season by the association, is well known to local audiences, as he spoke here in both the fall of 1936 and of 1935.

This lecture, it is also interesting to note, will be given in the attractive library room of the new High School in Polson Park.

To swell their Eye Clinic Fund the ladies of the Chrysler Chapter I.O.D.E. have inaugurated an unique method of raising money by giving the members each a little penny bag in which to save their odd pennies. In the spring a Penny Tea will be held and all the members will bring in their bags. In co-operation with Mrs. Stuart Martin the school nurse, the Chapter plans to find out the number of children in the schools who are in need of glasses but who are not able to pay for necessary treatment.

Through the Eye Clinic Fund these children will be cared for. The Chrysler Chapter has always done a great deal of relief work but their new objective is indeed a most worthy piece of patriotic work and will indeed bring forth most gratifying results. The annual Christmas party planned for the children of Vernon promises to be even bigger and better than last year. The date of the party will be announced later.

"Bohemian Night" was the theme of the social evening held by the Anglican Young People's Association at the Parish Hall on Tuesday evening. Candles in bottles on top of small tables which were placed around the room served as the lighting effects and the costumes of the young people added most suitably to the atmosphere. Competitions, games, and skits were the order of the evening and perhaps the most enjoyed were the take-offs of men of the day, Hitler, Mussolini, and Aberhart. The party concluded with a sing song and the serving of doughnuts and coffee. The A.Y.P.A. meets every Tuesday at 8:00 p.m., in the Parish Hall and any Anglican over the age of seventeen is most welcome to join. Alternate meetings take the form of a social evening and the others are given to educational discussions, debates, lectures, religious study, and mock trials.

## WATER METERS

(Continued from Page 1)

plumbing abuse of sprinkling privileges, owing no doubt also to the fact that there is a flat rate and lots of water. Steps should be taken at once to prevent waste.

"There is a further fact well known to the water committee and that is that the pump in the B.X. has now served its usefulness. It is expensive to operate for the service obtained from it, repairs are costly and take months to procure; and the city is faced with the fact that next year this pump should be replaced with a modern plant to give service for the money expended in wages and power to operate it.

"There are numerous complaints regarding water rates in the city; not that I think the rates are too high in many cases, for the water used and the service rendered, but there are numerous places where the rates should be adjusted, and the only fair and proper way is to supply water through a meter."

In dealing with the question of water accounts, Alderman Wilde advanced several suggestions and declared that the various changes, if adopted, should be put into effect by January 1 next. A summary of these recommendations follows:

## RECOMMENDATIONS

1. That a water meter rate by-law be prepared and put into effect January 1.

2. That the city of Vernon start installation of meters early in 1938.

3. That holders of all concessions or special privileges regarding water rates other than those covered by signed agreements, be notified of their cancellation as from January 1.

4. That the installing of meters be at the discretion of the water committee as to where and when they should be installed.

5. That water notices be sent out to all consumers every two months.

6. That a triplicate book be kept for the use of those persons living in rented houses and that a copy of the water account be mailed to the agent as well as to the consumer, and in this way the agent will be made aware that the water is in arrears at the end of 60 days and will be chargeable to the land at the end of another 30 days.

7. That all agents of property advise the City Clerk every month of any changes in their tenant lists; that all agents keep the City Clerk advised of their complete list of property for which they act, with names in full of tenants.

8. That the Council consider the following as a proposed rate for water charged through meters: for the first 2,000 cubic feet, a minimum of \$2; for the next 8,000 cubic feet, 8 cents per 100 cubic feet; for the next 10,000 cubic feet, 6 cents per 100 cubic feet; for the next 500 cubic feet, 4 cents per 100 cubic feet; all in excess of 70,000 cubic feet, 4 cents per 100 cubic feet.

Alderman Wilde further suggested that a charge of \$1 be made for testing a meter if it is found to be correct, registering on the customer's favor. Should the meter be inaccurate, no fee would be levied. All meters installed shall be owned by the city.

No decision was reached by the Council on the report. It was decided to have the City Clerk provide each Alderman with a copy in order that he could study it and discuss the report at a meeting in the near future.

## "GRADES COULD STAND STIFFENING," STATES FRUIT BOARD MEMBER

"It strikes me some of our grades could stand stiffening."

This was the remark made by O. W. Hembling at the local B.C.F.G.A. meeting here on Tuesday afternoon.

The member of the B.C. Fruit Board said that somebody had forwarded a sample of No. 3 apples that were as small as two inches, yet they were being offered the consumers in a large outlet store.

"The average grower, it seems to me, wouldn't have bothered to pick them," Mr. Hembling declared.

"The box contains" was the same, the freight the same, all other costs the same, why should that junk have gone out? Some producers are trying to get away with everything they grow, to the disadvantage of the other producers."

Mr. Hembling concluded with the remark that more rigid sizing requirements were what was most needed, but color requirements could be improved.

## OGOPOGO

(Continued from Page 1)

lo in the fading light out in the lake appeared a strange, undulating form, bobbing about in the waves, not "very like a whale" but very like a sea-serpent. We were of course quite interested as the more we observed it the more real it became in the darkening light.

"Some cadets practicing rowing in a long boat a half mile off shore drew near to the monster, looked it over and rowed away, finally pulling in to the beach just in front of us, so I went down and asked how our what the thing was that they had approached. 'Oh, Ogo-pogo,' said the lad.

"The next morning I drove up town about 8:30 a.m. for provisions. We had breakfast and lunch in camp, and on the way back, about 100 feet out in the lake was our friend Ogo-pogo and the beach practically deserted. My camera is always handy in the summer, so of course I stopped and got two snaps, my friends then joining me and obtaining some too.

"Well, after returning to Trail all my friends who saw the pictures were so seriously taking the matter, and congratulating me on being the first to photograph famous Ogo-pogo, that I decided to sell copies of newspapers, the first purchasers being 'Look,' and the Vancouver Province."

"The Province published my name, but did not take it seriously. Then I got a letter from one Francis Dickie, Heriot Bay, B.C., offering \$50 for an engagement, purporting to be a collection of unusual snaps. This Francis Dickie wrote twice always by special delivery, a tremendous rush.

"Well, finally I sold the enlargement to Mr. Dickie. Some time later, I got a long wire from the Toronto Star, stating it had purchased a picture from Francis Dickie. Would I send affidavits as to time of taking picture, color of monster, speed of travel and more of the like?

"So Mr. Dickie, collector of unusual snaps was on the job with my picture, and evidently has not only made a nice little thing out of it in the way of profit, but has copyrighted the photo, and according to you pinned the 'bull' on to me too. I wired the Toronto Star that I was co-operating with them in that yarn. I was not going to be put on the spot, to that extent. A 'believe it or not attitude' was all right, but I understand the published yarn makes Ogo-pogo a speed artist of a 30-mile per hour gallop.

"I wish you would let me know what English magazine published the picture and story, so that I can get hold of it. If the sale of the picture in England which I also think I might have a case against Mr. Dickie."

Mrs. Sinclair Dalgleish, of Kamloops, returned to her home on Saturday after a few days spent in this city as the guest of her sister, Mrs. R. Foot.

## COMMISSION TO BE ASKED TO ARRANGE INTERIOR SITTING

That the City Council will make an effort to obtain a sitting of the Rowell Commission on Dominion-Provincial relations at some point in the interior, preferably Vernon, was evident at the session on Monday evening.

The subject was first broached following reading of a letter from the Kelowna Board of Trade. The communication asked that the Council write the commission at Ottawa asking that a sitting be held in the interior as well as at the Coast. The Kelowna Board has written to all City and Municipal Councils and Boards of Trade in the Okanagan, Kootenay, and adjacent areas in this regard.

The Council decided to acknowledge the letter, stating that the subject has been under consideration by the city for some time.

### MAT HASSEN "ON THE AIR"

Development of plans for increased interest for both exhibitor and spectator at the B.C. Winter Fair, to be held at Vancouver Exhibition grounds, December 6 to 8, will be dealt with in brief talks by Mat Hassen, manager, on the weekly farm talks radio broadcast over C.B.R. Vancouver. He was heard on Tuesday, at noon, and will speak again on November 30. The program, sponsored by the agricultural department of the B.C. Electric Railway Company Limited, is broadcast from the studio of the University of British Columbia. Daily reports for potential exhibitors and visitors to Vancouver for the forthcoming Fair are also broadcast from the same studio at 12:40 noon, over the same wave length.

### TO INSTAL LIGHTS

Alderman Everard Clarke, at the City Council meeting on Monday evening, was authorized to have electric lights installed at the corner of Gore and Wilson Streets and on North Street. Both these sections of the city have been poorly lighted.

### MANY ENJOY JUNIOR BOARD OF TRADE DANCE

The National Ballroom was the scene of one of the gayest functions in months when the Vernon Junior Board of Trade were hosts at their first annual dance on Wednesday evening. Approximately 400 people attended, it is announced by Jack Ascroft, who headed the board's committee in charge.

The novelty features were a centre of interest during the evening, and the much advertised "fan dance" was the cause of speculation. Just who the dancer was has not been officially divulged by the board members, but it was certain that the part was taken by a "man."

Kenneth Peters returned from the Coast on Saturday last after having spent a week inspecting various furniture stores. He drove back via the United States, but was forced to travel by the Snoqualmie Pass as the Blewett Pass was blocked by snow.

## RICARDO

(Continued from Page 1)

cesses described under clause A in order 21 under the act. For the Crown, Mr. Dyrart contended that the work was processing as defined under Order 21.

Mrs. Helen Swan gave evidence that she has been engaged in work on the preparation of asparagus every spring since 1934 by Mr. Ricardo. She described her work as grading, sorting, and preparing asparagus. She worked only part time and for 53 hours labor was paid at 20c an hour. Her work was done during six or seven weeks in the spring in a packing house on the Ricardo ranch. She described the process in detail. She dipped the asparagus in water and placed it in boxes, the No. 1's according to length in five, six, or seven inch lengths. The culms were discarded. She figured according to her time book that at 27c an hour there was \$7.51 owing her.

Replying to Mr. Galbraith she said that the first year the pay was 15c an hour and the last three years has been 20c. The boxes in which the asparagus tips were placed were not lidded. Only two boxes were closed and these it was afterwards shown were sent out as gifts.

Evidence given by Mr. Ricardo, was to the effect that he has about 10 acres of asparagus which he disposes of through the Safeway store and Bulman's Limited. All that is done is that the asparagus is made ready as the Vegetable Board demands and in the ordinary course of disposing of a product of the farm. The cutting is taken on a building on the farm, that is used during August to house the apple pickers. Mrs. Swan and others are engaged as farm labor and the work they do is such as Mr. Baumbrough said is done by his children during the rush of the season. It is not skilled. The reason it is done in a building is to get it out of the sun as quickly as possible, a proceeding Mr. Baumbrough agreed is necessary. The asparagus is not washed, it is dipped to get the dirt off and the cutting is taken out.

After Mrs. Swan left another woman had done the work which she could do quite well after two hours supervision. Mr. Ricardo stated that his experience shows that farming cannot stand the wages of industry.

What happens to the asparagus after it reaches the cannery was described by John Shuttleworth, process foreman at Bulman's Limited. The boxes come in unlifted and are dumped on a table. The ends are cut off and any rough stuff taken out. It is washed very thoroughly in hot and then cold water and is placed in the cans. The grading, sorting, culling and washing for the cannery is done in the plant. To Mr. Dyrart, Mr. Shuttleworth said that Mr. Ricardo gets no price benefit from such sortings as he does. His asparagus is graded and sold for a grade. All culms are charged back to the grower.

"Mrs. Swan's work is a farm operation," said P. E. French, farmer, graduate of the Ontario Agricultural College, a representative of agriculture on the former Economic Council, one time Provincial Horticultural Association. He agreed that farming will not stand the wage paid industry. As also did G. S. Layton, R. Peters, and L. P. Wisbey, all men who have experience in farming or the economics of farming.

Asparagus is washed to take the heat out, sorted to take the culms out, and cut to size so as to be saleable, said W. H. Baumbrough, farmer and asparagus grower. He agreed that farming cannot support the industrial wage scale and that the operations described by Mrs. Swan are all part of farm preparation of products for market.

W. A. Middleton, farmer, a B.S.A., of McGill, for five years on the University of B.C. horticultural department on fruit economics, professor of horticulture at the Agricultural College in Nova Scotia, a member of the executive of the Coldstream B.C.F.G.A., and farming his own property, agreed that the operations described are farm work and that it is impossible to pay minimum wages on a farm operation.

In concluding Mr. Hayden remarked: "National cognizance must be taken of this situation, otherwise we'll be pressed under the economic juggernaut of the world."

Before the passing of the resolution it was pointed out by Percy French that the President of the B.C.F.G.A., K. Loyd, had left for Ottawa to attend a session of the Canadian Horticultural Council, the president of the Council.

At this session, he said, the question of the preference would be a prime point for consideration.

It was therefore decided that the Council should be informed by wire of the resolution passed by the B.C. F.G.A. Local at Vernon, dealing with the preference question.

## VERNON LOCAL

(Continued from Page 1)

Canadian apples over competing American fruit is reduced even slightly, the latter will flood into Britain to a very large extent, it was submitted. The result will be displacement of Canadian sales.

This prediction would tend to be borne out by the fact that although B.C. apples have an advantage of 38c gross over Washington on the British markets, so far this season there has been a 300 percent increase in shipments from the state of Washington to the United Kingdom. This was a statement made by C. A. Hayden, secretary of the B.C.F.G.A., who gave a general review of the situation, and outlined such action as has already been taken to acquaint the governmental authorities, federal and provincial, with the critical need for maintaining the preference on Canadian apples.

The great increase in U.S. fruit arrivals in the Old Country was instanced by Mr. Hayden as one indication of the terrific pressure that is constantly being exerted by the exporters on the other side of the line.

"Release the preference now granted," he declared, "and our present export market would soon dwindle."

The meeting was told that of the roughly 5,000,000 boxes at present grown in B.C., not more than three-fifths can find an outlet on the domestic market at rates that will yield the growers a decent return. This means that about 2,000,000 boxes must either be sent overseas, sent out to glut the domestic market and depress prices, or be dumped.

"The prospect of losing this preference, or even of its being cut down somewhat, is one that is alarming," Mr. Hayden remarked. "It suggests a situation that is as alarming as it possibly could be."

P. V. LeGuen, chairman of the B.C.F.G.A. Vernon Local, opened the discussion on this topic and he it was who framed the resolution to be presented to the meeting. This resolution, moved by Gordon Robinson and seconded by W. Goodenough, was, at the close of the meeting, wired to provincial and federal governmental leaders.

"It is generally recognized," Mr. LeGuen remarked, "that the United States is insisting on being given equality in Britain on the fresh fruit deal. And there are rumors that the Dominion government is about to give its consent, and yield on the terms of the Ottawa agreement, so as to permit the Old Country and the United States to reach agreement."

Mr. LeGuen then called on Mr. Hayden to speak as the latter had given the conferences at the Coast where the Ottawa deal had been initiated, and where action had been initiated, with the idea of impressing both the B.C. government and Ottawa with the need for retaining the preference now in force.

That E. J. Chambers had made a "strong and convincing case" before Premier Pattullo was the report given by Mr. Hayden, and the result, he said, had been that the Premier pledged himself to do everything in his power to urge upon Ottawa the need for consideration of B.C. fruit growers' wishes.

**SUBSIDY SUGGESTED**  
Attention was drawn to the fact that there was a new point involved in the resolution then being studied by the meeting. This was in reference to the suggestion of a subsidy, if the British preference is withdrawn.

"Subsidies are no new thing to the primary producers," Mr. Hayden pointed out. "The U.S. government has paid out three billions in that way."

In concluding Mr. Hayden remarked: "National cognizance must be taken of this situation, otherwise we'll be pressed under the economic juggernaut of the world."

Before the passing of the resolution it was pointed out by Percy French that the President of the B.C.F.G.A., K. Loyd, had left for Ottawa to attend a session of the Canadian Horticultural Council, the president of the Council.

At this session, he said, the question of the preference would be a prime point for consideration.

It was therefore decided that the Council should be informed by wire of the resolution passed by the B.C. F.G.A. Local at Vernon, dealing with the preference question.

## AYRSHIRES

(Continued from Page 1)

Orient, however, Mr. Scott says he will have to secure most of the animals down near the Coast. "The fact is," he announced, "that there are not now many Ayrshires that are really for sale up here. There has been such a brisk business that those dairymen who are willing to sell have already completed their transactions."

Mr. Scott says he will be including five Holsteins from the Coldstream Ranch, the next shipment to China and will also likely be taking some Jerseys to make up the order.

"I've always enjoyed taking a trip to the Orient in the past, with these cattle orders," he laughingly told The Vernon News, "but the hostility in that section of the world now makes it even more interesting."

### THREATENED LOSS OF BRITISH PREFERENCE RAISES STORM

A NOTE of genuine alarm has been sounded in connection with the threatened loss of the major portion of the British preference. It affects every grower of apples and pears in Canada and there are fears that the soft fruits may not escape the general blight when Canada and the United States get to grips.

At the present moment, British Columbia has a theoretical 38c a box preference which actually is nearer 30c due to some transportation advantage the details of which are largely a matter of surmise. The United States is asking this be cut two shillings a hundred, leaving us a ten cent advantage. How effective this will be may be guessed when it is known that under the conditions as ruling today the export of American apples to Britain in 1937 is said to be 300 percent above that of 1936.

Under the conditions now existing, 45 percent of British Columbia apples are exported, leaving between two and three million boxes to be sold on the domestic market. This will be boosted another million boxes by 1940. Nova Scotia sells about 90 percent of her apples in Britain. With the threatened loss of the British preference the six million boxes produced in British Columbia and the entire Nova Scotia, New Brunswick, Quebec and Ontario crops in collision on the domestic market, there "ain't goin' to be no price."

There have been articles in the newspapers which no doubt accounted for the comparatively large attendance of growers at the meeting of the Vernon local of the B.C.F.G.A., when Secretary Hayden gave them the facts.

However, it is not all over but the shouting. The lumber, fishing and canned foods industries are all in about the same boat and these industries will not be wiped off the slate without a struggle.

Now that we know clearly what it is the Americans want, there is opportunity to make known how that affects us. Great Britain seeks U.S. friendship and trade but not, we think, at the sacrifice of Canada or our vital interests. It is our opportunity to let the powers that be know our position. It may be that there is some way to make up what is threatened with ruin. Subsidies may be the way. There is a way if we can but find it. The history of Britain and her treatment of the Dominions does not indicate that the British lion walks off and leaves her cubs to fend for themselves. No nation has better reason for knowing the fickleness of Uncle Sam than has Britain and while it is fine to talk of the democracies standing together to show the totalitarian states their unity of interests, if acquainted with the facts, British statesmen will not do so at such a price.

### CLASH OF EVENTS AND INTERESTS CLUTTERS UP THE VIEW

EVENTS of the past few weeks, as possibly never before, have shown how small is the world we live in as a result of man's inventions. It was never any larger but hitherto we have not had the bridges to span the gaps. The war in China wipes the war in Spain off the front pages of the newspapers on all the continents under the sun.

Japan's demands for virtual control of the international settlement at Shanghai is supper-table talk for half the world and for the other half is breakfast-table news. The cutting of the wedding cake by a movie star and her newly acquired hubby provides the titillating over the tea cups, while for those who take an interest in more prosaic things the form of the governing body which shall control the Sports Arena interests Vernon and many Okanagan Valley people.

In such a day with so great a variety of interest, when a whisper in a bed room rings round the world, it is any wonder that we lose our sense of proportion, or find it difficult to focus attention on a situation which may set a conflagration which threatens to wipe out civilization?

The world will welcome any movement which will bring events under the correct focus and will enable us to enjoy the good things which man has provided and at the same time to estimate and to hold fast to things which are pure, good, and therefore for the benefit of humanity.

### UNWORKABILITY URGED AS REASON FOR CHANGES SOUGHT

THERE are some provisions in the legislation on the statute books of this province which are creating difficulties for the various governmental bodies. This particularly applies to the sale of land for taxes. The Vernon Irrigation District has been studying these and as a consequence is requesting changes. It is asking that the legislation be amended so that when a tax sale is held, taxes and tolls shall not lapse, or be cancelled, by a tax sale.

The request is being made, and it appears to be a reasonable one and conducive to efforts to clear up much of the middle surrounding municipal, government or improvement districts, that if a parcel of land is disposed of at tax sale, the amount of taxes and tolls of all bodies concerned up to the time of the sale, shall be included in the upset price. If such lands are sold subsequently at less than the upset price, then each body shall receive its proportionate share of the proceeds according to its charges against the land.

The request is further made that if the lands are not sold, as advertised and revert to the government, municipality or improvement district, it shall be free of all taxes until it is disposed of. In the event that the lands are leased or rented, the owner shall be responsible for taxes and tolls incurred during the period of the rental. If lands leased or rented, bring in more than the carrying charges, the surplus shall be divided pro rata to the amount of charges until they are satisfied.

In practice, lands are subdivided without the knowledge or consent of the irrigation district, or without

## Dear Godalming

(SURREY)

Soft nestled in the Valley of the Wey,  
That gently creeps beneath its  
Mothers' wing—  
Historic Thames—as children, homing,  
sing  
In restful quiet, at the close of day,  
All lulled to sleep by Nature's roundelay;  
So dreams, with joy that gallant old  
times bring,  
This lovely hamlet, this dear Godalming,  
Eld home of Godhelms\*, long since  
passed away!

Here, Dane and Saxon, in the Churchyard, lie;  
Here, Alfred had his Mint, long, long ago:  
Here, Normans prayed, Plantagenets  
still rest;

Here, Tudors, Stuarts lived and loved;  
So, I  
Would rest awhile, where purling  
streamlets flow,  
Amidst the Surrey hills, in Godalming!  
God bless!

KILBEE GORDON

\*Godhelms were an ancient tribe subject to the Kings of Wessex.

provision for necessary new works. Also subdivisions of lands have been registered purporting to convey rights-of-way to the district which do not cover the proper areas.

To prevent this, the request is made that on all plans for the subdivision of land within a district the Registrar of Titles supply a print of the same to the Improvement District's assessor.

The requests appear to be the result of the experience of the improvement district with the law as it stands at present. No doubt they are sought as a result of the difficulty and even the unworkability of the present provisions in the statutes. The official mind will probably oppose them as inroads on the protective measures enjoyed by the government but this is no reason for refusal. Times change and people with them and unworkability is as great an obstacle as can be found.

### DR. PATTERSON TAKES FIRST HURDLE IN STYLE

IN an editorial on the budget presented to the Provincial Legislature at Victoria, last week, The Vernon News made the statement that the Government knows the people are not yet ready for the application of the emergency brakes on the spending of public money.

It must have been about the time the words were being typed, that Dr. F. D. Patterson, M.L.A., leader of the opposition, was setting forth a program of rigid economy to the members in the Provincial Parliament. He warned that if British Columbia continues to pile up huge deficits in years of record revenue, and fritters away its income on wild financial adventures, it will end in disaster.

This was the Doctor's maiden speech. The opposition leader came out boldly for a program of rigid economy, for a non-partisan business administration, for non-political control of highways and for a vigorous forestry program, financed out of economy in other departments.

The speech indicates that Dr. Patterson is giving to the study of government the same painstaking effort which has made his name known everywhere on this continent among men who study the human anatomy. He is delving into the financial structure as hitherto he has regarded the bones in the human skeleton. His methods are thorough and direct. He wants to know and he is determined to find out. In the study of his profession he will go any place, under any conditions, to learn the utmost that is known. He is after results and in his profession he secures them, though he cares not a tinker's cuss about the pain the patient may endure in the process of having his bones made whole and healthy.

Dr. Patterson's maiden speech in the legislature indicates that he is following the same tactics in politics which have made his name one to conjure with in the practice of his profession. The question in the minds of politicians is, will it work out? It is almost something new and strange. It is honest, convincing and has been successful in medical work. The question is, has the patient, the province of British Columbia, suffered enough to be ready for the heroic measures the so-called cure calls for?

It is evident from his budget speech that (Dr.) Hart thinks it is not and that he has the backing of the Pattullo Government, a government which has a great deal of political sagacity. Also it has a tremendous following in the house. Doctor Patterson has challenged the old tradition that the only popular government, (and that gives it the votes), is a spending government.

If Dr. Patterson can convince the people of British Columbia that his party, the men who stand behind, will apply the brakes at his nod, he will have won the first round and probably the most difficult one. He will win a great public following even though retrenchment is never popular no matter how sadly it is needed.

If he introduces clear vision and honesty of thought in financial matters among the common people, of whom there are a great many of us, he will win a great name for himself even if the Conservative party, following such a leader, must for years endure the cool shades of opposition.

Along The Columbia River, British Columbia

THERE IS MORE HEROISM IN SELF-DENIAL THAN IN DEEDS OF ARMS.—SENECA.

## From the Files of By-gone Days

The Okanagan Valley Amateur Hockey League is away to a good start with four teams, Vernon, Armstrong, Lumbly, in the loop. The schedule as drawn up provides for the opening game on January 3 and the final on February 10.—After weeks of investigation, the Elks Lodge, Wednesday evening, completed plans for the purchase out-right of the Vernon skating rink. The price paid was \$1,250, and work will commence immediately on repairs.—Alderman Cyril Parkhurst is to be manager of the West Canadian Hydro Electric Corp. Ltd. He will commence his new duties about the middle of December.—The Hon. E. D. Barrow, provincial minister of agriculture, is in the Okanagan to gain information regarding amendments to the Marketing Act.

Practically all the fruit from the Okanagan has now been moved out, and the season of 1917 will mark the highest record yet made in the value of exports from this district. From the Okanagan valley it is estimated that exports will reach the value of \$2,500,000. A 15 to 20 percent increase for apples over last year's prices has been recorded.—Wednesday afternoon Secretary Smithers reported that the victory loan drive is nearing \$200,000 for Vernon and district. There are 974 subscribers. Kelowna has subscribed \$130,000; Armstrong \$75,000.—Mr. and Mrs. W. E. Stephens, of Coldstream, left for Vancouver last week and from there will proceed to the oil fields in the southern United States. Mr. Stephens is convinced that he can locate oil wells by a system of his own, using a hazel switch.

Alderman Costerton reported at the City Council meeting on Monday last that taxes have been coming in speedily and to date more than \$27,000 has been collected. It was decided to have a great part of the city's accounts audited earlier so as to present a balance sheet for the municipal elections. Milk dealers of the city have been forced to advance prices and quarts will now retail for ten cents.—John Carswell has just presented the city library with 78 fine volumes.—G. A. Meeker returned on Monday night from a hunting trip to the Fall Creek country. The party included Charles Miriam and E. Denny, and were successful in bringing back three fine bucks and a doe.—The chess club has steadily increased its membership and seems to be looking forward to a long and successful career. C. Fulton is the prime mover.

## What the American Press Had To Say

American reaction to the Duke of Windsor's cancellation of plans for an industrial tour of the United States have varied from expression of the belief that "it's just as well" to criticism of American manners.

Most commentators agreed that the duke's selection of Charles E. Bedaux, American engineer who invented an industrial speed-up system, as his guide and adviser was unfortunate. Almost all of them looked upon the duke as a pathetic figure who can be neither a king nor a private citizen.

The American association for the recognition of the Irish republic thanked the Baltimore federation of labor for "calling the national attention to the basic facts of American life" in its criticism of the duke's proposed visit under the direction of Bedaux.

The New York Post and the Philadelphia Record both said the duke "paid the American people a compliment" by cancelling his visit. The Post added that "Windsor has himself and his associations with notorious reactionaries and fascists to thank for the loss of esteem in this country."

The Los Angeles Times felt that the postponement called "attention to the boorishness of the A.F. of L." and that the duke was "entitled to a courteous reception." The Philadelphia Evening Bulletin said the duke was a "victim of circumstances" and the New York Herald-Tribune said that collapse of his plans lay "somewhere on the border between pathos and personal tragedy." The duke, the Herald-Tribune added, "divested himself of none of the penalties of kingship, only of its defenses."

H. G. Wells, British author on a lecture tour in America, said of the duke that "he is no longer a public character" and the Hartford (Conn.) Courant saw him as "not only a man without a country but a man without a job" whose greatest need was "a set of good advisers."

The New York Times suggested the duke "might receive an enthusiastic welcome in Soviet Russia" where

"the industrial speed-up system under the name of Stakhanovism is a major Stalin policy."

The Kansas City Times in an editorial cartoon showed the duchess, chin in hand, asking an abstracted duke, "Well, David, what the hell shall we do now?"

The Oklahoma City Times added "Free America to the list of nations that is naming the duke" and "charges of labor concerning the proposed trip both 'crude and rude and not in any sense good sportsmanship.'"

The Schenectady (N.Y.) Union Star said the duke was "again a victim of fate" but the New York Daily News blamed the "circus aura" of the duke's plans before the cancellation on "a little Baltimore girl's ambition to come back and swank around in her own country."

The Chicago Tribune said the duke might well "consider now a life of retirement as a country gentleman." There was nothing "awaiting him in America," the newspaper added. The Chicago Times thought it was "a good thing Mr. Bedaux is 'out.'"

The Kansas City Journal-Post said the duke was "an excellent prince" but an "inexpert private citizen." The Boston Traveler said the duke acted "like a gentleman" but a gentleman "who has an unhappy faculty for falling into the wrong company."

The Scripps-Howard newspapers said that "perhaps it's just as well that the Duke of Windsor has postponed his American tour." If his position is such that he can't risk censure, they added, "well, this country just isn't the sort of place that he should visit, especially under the chaperonage of Mr. Bedaux."

The Cleveland Plain Dealer said in American reaction to the duke's plans "American manners at near their worst." The Columbus (O.) Dispatch commented on the duke's "sensitivity to public criticism" and said "the American people is not used to muzzles."

The Springfield (O.) News-Sun saw in the duke's plight "an example of the torture of the unemployed."

## The Slot Machine

A high school principal in Oklahoma, who believes in a little practical demonstration, managed to get hold of a slot machine and took it to his school. The pupils were assembled and one boy fed nickels to the machine while a second jotted down the results on the blackboard. There would come a spurt of wins, and then a flow of losses, but the losses were more than the wins. At the end of the period it was found that the machine had sixty per cent of the nickels played.

Then a police officer, who was had in for the occasion, came forward and took off the back of the machine and showed the kids the machine's innards. He showed them an adjusting apparatus which was adjusted to a 60-40 basis. So it made no difference how long they fed it with nickels, the result would be 60 to the machine and 40 to the players. The machine couldn't lose. Then he showed them something called a "doctor" which was used to adjust the machine. The machine could be regulated just as a watch is regulated. A touch of the operator's hand and the percentage could be changed. In some cases machines had been adjusted to 95-5.

"You don't have to study mathematics to see through that," was the verdict of the boys.

It recalls the experience of a gentleman who knew something about mathematics and who decided to put a certain amount in nickels and see how it would pan out. In his case it was not a slot machine, but a different money-taker where eight or ten could play at a time. This man had worked out the probabilities and placed his nickels always on the same spaces. For a time it seemed to work according to rule. He lost and he won, then lost and won again, again he lost till he was down to the last nickel, then up it shot until he had almost recovered everything back and when he did he was going to stop, for it was information he was after and not winning somebody else's nickels.

Before he had quite touched the equal line, it took a turn down and stripped him of every nickel. He came to the conclusion that the machine was not designed according to the accident and chance of nature, but felt that it was definitely changed by the operator while his particular experiment was going on. His conclusion would seem to be right since in the case of the slot machine it could be "doctored" at will. Apart altogether from the ethics of taking something for nothing, all these devices are simply "taking candy from a baby" as, of course, most people suspected.—The Halifax Chronicle.

## Frank Couldn't Talk French

A writer in the Kelowna Courier has unearthed a good story about Frank Buckland, one of the old timers in the Valley, almost as well known in Vernon as in Kelowna.

Frank is one of the Rotarians who attended the Rotary Convention at Nice, France, and gave a description of what occurred to the Rotary Club at Vernon. Only he did not tell this one, and who can blame him?

Last week Rotary Governor Fred Smith told the Rotary Club here some inside stories about the Rotary Convention at Nice, France. In France, he stated, the bath-tubs are so large that one has to be careful not to get

drowned. His own wife filled the bathtub too full and hubby had to run to her rescue and pull her out. It also seemed that Frank Buckland decided one day to have a bath in a similar type of bathtub. It was a particularly hot day and Frank was floating about in his tub enjoying the "cooling off" ceremonies immensely. On making one turn of the tub, he noticed a cord hanging down. He gave it a yank, and in a couple of seconds the door opened and in walked the chambermaid. Now, says Governor Fred, Frank couldn't talk French and the chambermaid couldn't talk English, so Frank had a dance of a time to get rid of her.

Report On Gas Prices

Constitutional Points

Quebec's "Padlock Law"

Unwin Not To Appeal

Bruce Leaving Post?

Making its own independent analysis of production and distribution costs in the fuel industry, the report of the MacDonald Commission was tabled in the British Columbia Legislature on Friday last, recommending drastic changes in handling methods, and severe price reductions, conditioned by the carrying out of its suggestions. Under ideal conditions coal could sell in Coast cities for \$8 a ton, and gasoline at 18 cents a gallon plus freight from the refineries, the Commission finds. Express recommendations include mechanization of coal mines, the use of over-developed retail distribution in both coal and gasoline, use of automatic stocking devices, simplification of grades in coal, a buy-at-home policy in coal, and house alteration to permit the discharge of coal in bulk, unstacked. Extensive tables are produced with reference to company costs and capitalization. "Consumers of gasoline have for many years been paying excessive prices for gasoline to enable oil companies to sell fuel oil at a loss. Gasoline users have, therefore, been paying in effect, a bonus to heavy fuel oil users, not to benefit, but to impair the local coal industry. On the other hand, furnace and lighter fuel oils are sold at a profit. Gasoline is sold and distributed by wasteful and extravagant methods to a marked degree. Gasoline should be reduced in price to not more than eighteen cents a gallon in Vancouver, inclusive of the seven cents provincial tax. It should be cheaper in British Columbia than elsewhere in Canada, because of geographic position and water transportation," the report declared.

Constitutional references to the Supreme Court of Canada arising from requests by the Alberta Government and bills passed by its legislature will be heard successively starting January 10. First reference will be heard on the power of the Dominion Government to disallow provincial legislation and the power of the Lieutenant-Governor to reserve for the pleasure of the Governor-General bills passed by the Legislature. The second reference is interested in the bills designed to increase bank taxation and license credit institutions. Counsel present were advised by the Chief Justice the court would want to hear argument only from one set of counsel in each of the interested groups. That would mean one from the provinces opposing the bills, one from those supporting them, one from the banks and one from the newspapers.

Redistribution of provincial ridings and unstated changes in the Provincial Elections Act will be made by the government at the next session of the Legislature, Premier Pattullo of British Columbia has announced. There would be no large-scale reduction of seats such as recommended by the Opposition, he said.

The weekly newspaper Clarinet, whose office was moved recently under Quebec's "padlock law" against Communism, was circulated in Montreal again last week. Its masthead bore a Montreal date line, but the new issue was understood to have been printed in Toronto. The type across the front page were the words: "Notice to Duplessis—none will ever smother Clarinet, defender of the people and of civil and labor rights." Premier Maurice Duplessis, as attorney-general of Quebec, ordered the printing of the Clarinet, and the printing office where it was turned out. The home of one of its editors, Jean Peron, also was padlocked.

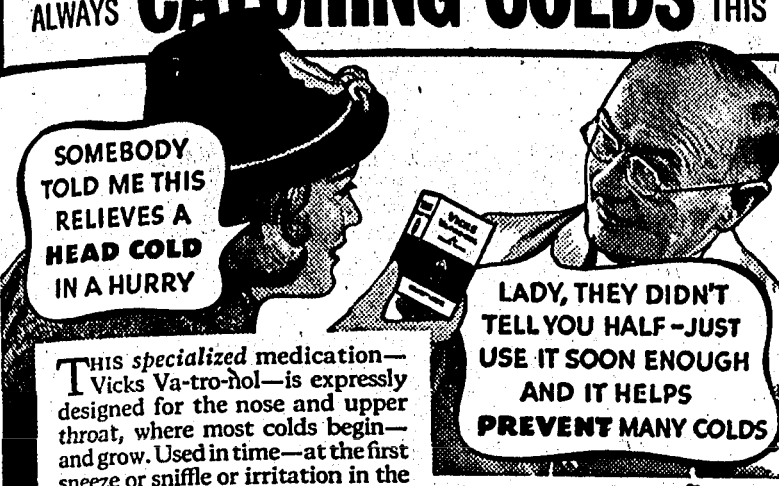

Joseph H. Unwin, Social Credit member of the Alberta Legislature for Edmonton, announced in Edmonton he was considering dropping the appeal against his conviction on the charge of defamatory libel, knowing it to be false, and his sentence to three months in jail at hard labor. "It is too expensive," said the Government whip, who was contacted by an Alberta Supreme Court jury and sentenced by Mr. Justice W. C. Ives.

Dr. Joseph Stairs, for twenty-five years professor of constitutional and administrative law at Laval University, Quebec, has been appointed to succeed Supreme Court Justice Rinfret on the Royal Commission on Dominion-Provincial Relations. Justice Rinfret was forced to retire because of ill-health. Prime Minister Mackenzie King announced.

Negotiations between Canada and the United States are well advanced for a treaty for the interchange of information to cope with income tax dodgers in the two countries and expectations are that agreement will be presented to Parliament at the convention for ratification. The substance of the treaty, it was learned in high official sources, is that each country will open its books to the other in respect to income tax returns of wealthy citizens suspected of setting up so-called "dummy" companies to defeat the income tax laws in Canada and the United States. Co-operation between the two countries is proposed as a result of the Washington investigation which disclosed that prominent citizens of the United States and Canada were defeating the income tax laws of their respective countries by holding corporations of persons incorporated in a new Canada-United States trade pact would be completed at time for submission for approval at the coming session, the spokesman declared. "The triangular trade relations between Canada and the United States, on the one hand, and between the Mother Country and the United States, on the other, are well advanced," he declared.

Hon. Norman Armour, United States envoy to Canada, will be heard in a forty-five minute address over the national network of the Canadian Broadcasting Corporation November 30, at 7 p.m., when he speaks before delegates attending the annual celebration of the Winnipeg St. Andrew's Society. The gathering will be under the chairmanship of Justice H. A. Robson and music will be provided by the St. Andrew's Male Chorus.

Quotations from Shakespeare and the Bible, which will illustrate the extraordinary influence of these writings on the English language, will be given by Campbell McInnes, when he presents the tenth broadcast in the CBC series, "This English", on Tuesday, November 30, at 5:00 p.m. This talk on correct speech will deal also with the introduction of the putting press by Claxton and its effect upon the language. Further references will be made to interesting examples of dialects, to their variety and richness as distinct from the sounds of literary English.

Gustave Longtin, tenor, and Roland Leduc, violinist, will be featured artists on the CBC program "Along the Danube", to be broadcast Sunday, November 28, at 4:30 p.m. Mr. Longtin will sing "Dream Waltz", by Strauss, and Mr. Leduc, who is soloist of the Concerts Symphoniques de Montreal, will interpret the first movement of Poppo's "Hungarian Rhapsody". The full concert, which will be under the direction of Jean Deslauriers, will be: Finale of the 2nd Act of the "Tzarévitch", by Lehar; "Memories" (Orchestra) by Strauss; "Paradise" (Old Viennese Folk tune) (Chorus), by Kreisler; "Hungarian Rhapsody" (Roland Leduc), by Poppo; "Dream Waltz" (Gustave Longtin), by Strauss; "Twilight Hour" (Orchestra), by Otto Kohler, and "Hungarian Fantasy" (Chorus and Orchestra), by Liszt.

The four movements of the Quartet of Debussy will be played by the Quatuor de Montreal during the broadcast to be presented Sunday, November 28, at 10:00 a.m. over the national network of the CBC. The program also will be heard as an international exchange feature in the United States over facilities of the Mutual Broadcasting System. Debussy's one and only string quartet was written in 1893 and was dedicated to the members of the famous Ysaye Quartet. It is thoroughly characteristic work that typifies the elusive atmosphere in which the great composer worked. At the time it was written it was an absolutely new thing in chamber music and in 1893 it offended many conservative musicians by reason of its novelty. It is, however, significant that it has quickly become one of the favorite quartets in the modern repertoire.

Teddy Yellow Fly, full-blooded representative of the Blackfoot tribe, one of the most famous of Indian bands that ever rode the plains, will be heard over the national network of the CBC from Calgary, on Saturday, November 27, at 5:00 p.m. Teddy Yellow Fly will be the sixth Indian to talk in the series known as "The Indian Speaks". The concluding talk will originate the following week from Vancouver.

Marshall Spring Bidwell, who has been described as the first leader of Liberalism in Upper Canada, will be the subject of a broadcast talk on the CBC "Canadian Portraits" series Thursday, November 25, at 7:30 p.m. Professor Chester W. New, of McMaster University, Hamilton, will be the commentator. Marshall Spring Bidwell was the son of Barnabas Bidwell, Attorney-General of Massachusetts. He was raised and educated in Upper Canada, and from 1829-1836 he was recognized as the leader of the Reform Party in the province. He retired from politics and left Canada after the Rebellion of 1837 and in his later years was a distinguished member of the New York Bar. Professor New is head of the Department of History at McMaster University. He is a member of the Royal Society of Canada, of the Canadian Historical Association and of other historical societies.

# "Buy In B.C. And Give Employment To B.C. People"

## A. C. Foreman Presents Interesting Facts In Addressing Audience In This City

"If the money that goes annually to Eastern Canada were circulated in this province instead, there would be from 10,000 to 15,000 more B.C. people employed," declared A. C. Foreman, secretary of the B.C. Products Bureau of the Vancouver Board of Trade, during the course of an interesting address before a large audience in the Scout Hall on Friday afternoon last.

Spearpoint in the Okanagan's annual B.C. Products Week campaign, Mr. Foreman spoke to a gathering of women and pointed out the immediate benefits to be obtained from purchasing goods manufactured in this province. His address was given under auspices of the Vernon Women's Institute, and he was introduced by the president, Mrs. Adam Grant.

British Columbia is purchasing \$40,000,000 worth more goods from Eastern Canada than she is selling to that portion of the country, Mr. Foreman continued. There is a tremendous importation of goods from Ontario that could be produced equally as well here. He pointed to the clothing industry as one instance, declaring that some 1,500 workers could be employed in this trade, if there were a demand for B.C. goods of this nature.

In opening his address, Mr. Foreman asked that women, who do a very large percentage of all purchasing, use selective buying. "Ask specifically for what you want, and your grocer will be pleased to get it for you," he advised.

Thousands of boys and girls are leaving British Columbia high schools every year, and then they must look for a place in industry. "It's far better to have pay lines that relate to the value of the product," he declared, pointing out that if youth is to be employed, industry must be in a position to expand. This can only be accomplished through wider markets.

Expenditures on B.C. products, if carefully selected, can do much to advance industry and lessen relief rolls. Should each person in this province spend only five cents more a day on B.C. products, millions more dollars would circulate and at least 13,800 more men and women could be employed, Mr. Foreman pointed out.

To some extent manufacturers are themselves to blame for lack of reception of their goods in B.C. Many of them do not place a distinctive label on their product to show that it is made in this province. One reason advanced for this is that shipments are made to the prairies as well as to B.C.

British Columbia's basic industries, apart from agriculture, are lumbering, mining and fishing, all of them dependent on export trade for their existence. Should prices for timber or metals drop on the world markets, the effect would be tremendous. In this case the province would be forced to drop its back on its industrial life to provide work for men and women, Mr. Foreman declared. Therefore, it is doubly necessary, he argued, to develop internal trade and to build up a strong demand for B.C. products on the home market.

Investigation showed him that B.C. imports annually some \$11,000,000 worth of agricultural necessities. Of this total \$4,500,000 are brought in direct competition with B.C.

"The only reason these imports are made," he said, "is because there is a direct demand for them. Don't blame Eastern Canada for shipping to B.C., but try to build up in the home markets support for your own products. British Columbia used to be known as the 'happy hunting grounds' for eastern travellers, but, happily, this is becoming less and less the case."

Two other reasons were advanced by the speaker for the large importations to B.C. One is the low wage scale prevailing in the east, in canneries, factories, and practically all lines of endeavor, the second is the inequality of freight rates, favoring the east. Coast manufacturers can only ship to the fringe of Alberta on an equal footing. From that point differences appear and the farther into the prairies, the greater the handicap.

"Today we've got to get up and fight for our business," Mr. Foreman said. "And we will be forced to do this until a national wage system is introduced." On canned goods, as an example, twenty percent of the cost is labor in the east. In B.C. labor accounts for forty percent.

Eastern goods, too, carry the force of national advertising behind them. "But that does not mean that our products are not just as good or better," he said. Speaking of advertising, Mr. Foreman declared that he has consistently urged manufacturers at Vancouver to set aside a definite yearly sum for this purpose. Only in this way can a systematic demand be built up.

In concluding, Mr. Foreman cited interesting sets of figures to show the advance recorded by British Columbia. The total payroll last year was some \$142,000,000, and 1937 will see an advance of from 10 to 15 percent, according to government figures.

Relief lines are dropping steadily. The average weekly wage in B.C. in 1936 was \$28.50, as compared with Ontario's \$19, thus giving a large comparative increase in individual purchasing power.

Stores in Buenos Aires, Argentina, are being equipped with American air conditioning apparatus.

**LAVINGTON PEOPLE RAISING FUNDS FOR CHRISTMAS "CHEER"**

LAVINGTON, B.C., Nov. 20.—The whist drive, held in the Lavington School on Friday evening last, proved quite a success, although it was not so well attended as usual. The prizes for whist were won by, ladies first, Mrs. G. B. Richardson, who scored just one point more than Mrs. Mat Popowich; gentlemen's first, Bill Dave. A consolation prize was presented to Bill Swan.

The sum of \$14 was realized which will be laid aside for the Christmas tree fund. It is anticipated a good crowd will be present on Friday next, when a dance and entertainment will be held for the same good cause. Several more children will look for presents this year, so "Santa" will have to get busy and do his best to supply them.

The Anglican service, which was postponed on account of weather conditions, will be held on Sunday afternoon at 3 o'clock on November 28, with Rev. H. C. B. Gibson, conducting the service.

**MAKING THEIR DREAMS COME TRUE**

**INTO** the lives of thousands of Canadian women has come a new happiness—a new sense of security—through their wise investment in Life Insurance.

These modern, self-supporting young women have adopted the Life Insurance plan of making their dreams come true. By setting aside small amounts now, they can look forward to the time when they can say "au revoir" to their daily routine and enjoy life to the full.

Their Life Insurance will free them from money worries today and tomorrow—providing a cash reserve in times of emergency—and, later on, a guaranteed monthly income as long as they live.

To women, as well as to men, Life Insurance ensures financial security through little savings. That is why women are now buying, on an average, one out of every five Life Insurance policies sold in Canada.

## KAMLOOPS COUNCIL TO ASK REDUCTION ON FIRE INSURANCE

Wish Lowering Of Costs For  
Business Districts  
Especially

KAMLOOPS, B.C., Nov. 22.—Secure  
in the knowledge that the fire  
fighting facilities of this city are  
beyond reproach, the city council  
is applying to the board of fire  
underwriters for a reduction in in-  
surance rates here, particularly in  
those covering business premises.

Decision to proceed was reached  
at a recent meeting after a short  
discussion initiated by Mayor C. E.  
Scanlan who stated the city during  
the last few years has been improv-  
ing the water pressure, the fire  
hydrant system, the fire brigade  
and its equipment and "now should  
go after a reduction in fire in-  
surance rates."

"It's high time," chimed in Ald.  
G. R. Williams.  
While voting for the motion to  
proceed, Ald. C. D. Brown took  
time to point out that "as far as  
fire rates on residences are con-  
cerned they are just as cheap here  
as anywhere else."

But, argued Mayor Scanlan, res-  
idential property is not only a por-  
tion of the insurance rate structure.  
The business rate here is entirely  
too high, he flatly declared. Fire  
insurance statistics in the Canada  
Year Book show a ratio of losses to  
net revenue of 40 percent across  
the entire dominion. "The loss in  
Kamloops during the last three  
years doesn't amount to \$2,000 a  
year," he said.

During his connection with the  
fire hall, stated Ald. C. W. A. Tock-  
nell, he had always believed that  
the object of making improvements  
in the fire fighting system, the  
new pumps, the new fire hall, the  
new fire truck, etc.—was so that an  
application for a reduction in rates  
could be pressing after the fact.

"The condition today is altogether different from  
what it was two years ago," de-  
clared Ald. Tocknell. He moved  
that the board of fire underwriters  
be asked for a rate cut.

"The city is in first class" fire-  
fighting and fire-prevention con-  
dition, declared Ald. G. R. Williams.  
"It should get a first class rate." In  
his opinion the city council, as a  
representative body, should take the  
initiative. "Go right after it," he  
urged.

Ald. Brown made his position  
clear when he said: "While I would  
like to see the rates go down there  
has been a gradual reduction in  
Kamloops for years." He pointed  
out that the premium was \$3  
and now is \$1.64. "But some  
places are regular fire traps," he  
continued, "and are paying from  
\$4 to \$5."

## COMMUNITY SUPPER AT RUTLAND PROVES MOST SUCCESSFUL

Large Crowd Enjoys Varied  
And Interesting Program  
Of Entertainment

RUTLAND, B.C., Nov. 22.—The  
annual community supper, under  
the auspices of the Rutland Hall  
Society, was held in the hall on  
Thursday evening, November 18, and  
attended by about 250 persons, who  
were served at two sittings with an  
excellent menu, prepared by the  
Women's Institute members.

The supper was followed by a  
varied program of vocal and in-  
strumental numbers which was one  
of the best programs given for sev-  
eral seasons past. Dancing followed  
from 10 to midnight, the entire  
evening's entertainment being well  
worth the modest admission. Ten  
dances of the net proceed to the  
Institute, and the balance to the  
Hall Society to aid in meeting the  
cost of operations.

Following is the program of the  
concert: 1. Highland dances, Miss  
M. Kennedy; 2. vocal solo, Miss  
Vivian French; 3. guitar duet, A. C.  
Parfitt, and Bob Parfitt; 4. vocal  
solo, J. Cameron Day; 5. reading,  
Mrs. De Mara; 6. vocal solo, Mrs.  
J. C. Day; 7. violin solo, Miss B.  
Emile; 8. piano solo, Mrs. J. C. Day.  
The program was carried out by the  
duties of chairman.

The local independent firm of  
McLenn & Fitzpatrick closed their  
season's operations on Thursday,  
after a longer run than usual.

Axel Eutin, left on Wednesday  
via C.P.R., for Calgary, Alta., on a  
business trip.

A wedding of interest locally was  
performed at Vernon on Wednes-  
day last when Miss Catherine Mack,  
eldest daughter of Mr. and Mrs.  
John Mack of this district, became  
the bride of Melville Marshall, also  
of Rutland. They will take up their  
residence on the Marshall Ranch  
on the Vernon Road.

The Anglican Guild held a suc-  
cessful "tumble sale" in the Com-  
munity Hall on Tuesday, November  
16th.

W. T. Barber and Mrs. Barber  
have moved to Kelowna to reside,  
having traded their ranch in the  
Hollywood district for Kelowna city  
property belonging to J. Gaspar-  
dine.

## MISS LAURE QUESNEL IS HONORED BY HER MANY LUMBY FRIENDS

The Misses Helen and Hazel  
Skinner were joint hostesses at the  
home of Mr. and Mrs. William  
Skinner, at Lumby, to honor Miss  
Laure Quesnel, a November bride.

The rooms were artistically de-  
corated with blue and white stream-  
ers and wedding bells.

The numerous gifts were brought  
to the bride in a gaily decorated  
basket and wagon drawn by little  
Fro Genier.

The table, covered with a lace  
cloth was covered with a wedding  
cake and a miniature bride and  
groom.

Aides in serving were Mrs. Mor-  
rison, Mrs. Ronnie Hill, Misses  
Evelyn Bent, and Isobel Ingalls. Over  
80 guests were present.

LOST IN HILLS, TRAIL MAN SUCCUMBS

TRAIL, B.C., Nov. 24.—Ira Brin-  
son, of Trail, a son of Mr. and Mrs.  
E. Johnson, of Penticton, died  
on his hunting trip in the Blue  
Creek area, according to word re-  
ceived on Tuesday. Death was the  
result of exposure to the elements.  
Brinson was lost for some days.

## Pythian Sisters Of Enderby Hold Most Successful Party

Bridge and Whist Drive  
Proves Very Enjoyable  
For Large Number

ENDERBY, B.C., Nov. 22.—The  
Pythian Sisters of Enderby Temple  
held a very successful bridge and  
whist drive on Thursday evening  
in the K. of P. Hall. At 7 o'clock  
the members met for their regu-  
lar meeting which lasted for an hour.  
The hall was then opened for the  
bridge and whist.

Mrs. T. Jeffers acted as head of  
the refreshment committee, and  
Mrs. R. Coltart of the entertainment  
committee. There were eleven tables  
and after the usual length of time  
playing, the prizes were donated to  
the winners. W. Kliner checked the  
scores for the bridge and presented  
the ladies first to Mrs. S. Barton,  
and the gentlemen's first to J. La-  
forge, the consolation prize prizes  
to W. Freeman. Mrs. J. Wilson,  
who checked the whist score, pre-  
sented the ladies first to Miss Clara  
Garret, and the gentlemen's first  
to James Andrews, and the con-  
solation to Mrs. O'Brien.

After the prizes were donated the  
raffle for the cake took place.  
All tickets were put in a large box  
and shuffled by H. Chomat. Mrs. S.  
Speers drew the lucky ticket and  
presented the cake to Mrs. R.  
White, the winner.

Refreshments were then served  
by the members of the lodge.  
The receipts for the evening  
amounted to \$10 at the door, and  
\$21 received for the raffle of the  
cake. The consolation prizes which  
were given for the bridge and whist  
were donated by Mr. and Mrs. R. J.  
Coltart. Some of the other prizes  
received at the games were donated  
by Mrs. T. Jeffers. As this was the  
first drive of the season the Pythian  
Sisters feel that it proved very  
successful and they hope to be able  
to hold more in the near future.

Mrs. M. B. Keith closed her house  
for the winter on Saturday, and  
left for Vernon, where she will  
spend some time in residence at  
the Kalamalka Hotel, visiting with  
her daughter, Miss Jean Keith, be-  
fore proceeding to other points.

The Enderby friends of Harry  
Preston are glad to see that he has  
improved enough after his illness  
to be able to be around again.

Mr. and Mrs. E. Hawkins and  
children, of Field, visited at the  
home of Mr. Hawkins' parents, Mr.  
and Mrs. C. Hawkins, over the  
week end, returning by train to  
their home on Monday evening.

Mrs. George Andrews motored to  
Vernon on Saturday to meet her  
daughter, Mrs. W. Olson, and small  
son, who will spend some time with  
Mrs. Andrews while her husband is  
receiving medical treatment in the  
General Hospital at Vancouver.

John Johnson has been laying a  
new floor, putting in kitchen and  
bath, and doing other carpentry  
work at the home of Mr. and Mrs.  
Paul Imbeau, on the back Enderby  
road.

A number of Enderby Young  
People of Saint Andrew's United  
Church, motored to Salmon Arm  
on Wednesday evening to attend a  
play which was put on there by  
the Salmon Arm United Church  
Young People.

J. Kass, accompanied by his  
daughters Noreen and Joyce, were  
visitors to Vernon this week.

H. Hendrickson reports that  
there has been a fall of seven inches  
of snow in Enderby this week, and  
this fall of snow has put new life  
into the citizens of town. The hills  
are ringing with the shouts of  
children sleigh riding and some of  
the merchants of town are preparing  
their windows with decorations for  
the Christmas season trade.

Emery Emerson had the good  
luck to bag a nice deer on Sunday  
afternoon.

R. Kelle and others motored to  
Armstrong to attend the Canadian  
Legion banquet on Friday evening.  
Mrs. H. Chomat, who left for  
Coast points on Friday evening, was  
unable to be accompanied by her  
husband, H. Chomat, owing to the  
change in plans for the relieving  
agent of the C.P.R. station. Mr.  
Chomat will leave for his holidays  
on Monday evening.

M. McKay of Sicamous was an  
Enderby visitor on Thursday.

Mrs. W. Livingstone and son Vic-  
tor, motored to Vernon on Friday,  
and Mrs. T. Morton, who had spent  
the day at Armstrong, accompanied  
them home.

A Reeves motored to Lumby and  
other points on Wednesday and re-  
ports that he saw some of the

## ARMSTRONG HONORS FORMER POSTMASTER

ARMSTRONG, B.C., Nov. 22.—The  
regular meeting of the Spallumcheen  
Municipal Council held on Satur-  
day afternoon, November 13, in the  
Municipal Hall with all the coun-  
cillors in attendance and Reeve  
Noble presiding, had a somewhat  
prolonged session before the business  
in hand was disposed of.

The Interior Provincial Fair As-  
sociation interim report having  
shown there was a loss on the year's  
operations the council was requested  
to give the full \$500 grant. The  
council had made a grant of \$250,  
but, if there was a loss, they would  
give a grant of \$500, it had been  
understood. The council unanim-  
ously voted the \$500 grant to be  
given to the Association.

J. Peters interviewed the council  
with regard to snow plows. Mr.  
Peters showed a model of a plow  
and explained with considerable de-  
tail how the plow would be operated  
and the advantage it had over the  
see-shaped plow which only pushed  
the snow to the side while the plow  
he demonstrated would lift the snow  
up and throw it out.

The matter was discussed at con-  
siderable length, all the mem-  
bers of the council taking part and  
they finally ordered one double-mold  
board plow.

The inspection of the Larkin road  
was reported and acting on the re-  
port of the Council approved of the  
closing of the Larkin road crossings.  
Reeve Noble along with Councillors  
McCallum and McDonald were  
appointed to act on the court of  
revision for the 1938 voters' list, the  
court to be held on December 3.  
T. Y. Andrews was appointed  
returning officer for the impending  
municipal elections.

Completion of the agreement with  
A. E. Fear as to the acquisition of  
the right of way for road purposes  
was reported.

The Steele Springs water system  
which had been given a grant for  
the pipe required to be moved off  
the road asked for an additional  
grant as the cost of the pipe had  
exceeded the estimate. The in-  
stantial sum asked for was unani-  
mously granted.

A prolonged discussion on relief  
took place, the cases of several par-  
ties who had moved away from  
the municipality being particularly  
mentioned and the council main-  
tained their attitude that no relief  
would be paid where the parties re-  
sided outside the municipality.

The clerk reported that \$428.83  
interest on the Swensen bequest had  
been received and the council auth-  
orized the payment of the moneys  
to the Interior Provincial Fair As-  
sociation.

The official school trustee re-  
quested the council to have signs put  
up at the top and foot of the cork-  
creek road to notify that the school  
bus used the road at certain times.  
Councillor McDonald was authorized  
to have the necessary signs erected.

The various councillors were given  
authority to place orders for  
cord wood to the amount of 30  
cords each at the price of \$3.50 per  
cord. The cord wood is for the  
schools and this method of getting  
the wood is the same as was fol-  
lowed last year.

In connection with the diversion  
of the Fear road a small piece of  
land would be required to be taken  
from the Pringle property and the  
council authorized the payment of  
\$20 for a release of the necessary  
land.

More than 720,000 cases of can-  
ned red salmon were produced in  
Japan in 1937.

S. Speers' customers are glad to  
again welcome Miss Hazel Ulas be-  
hind the counter in his dry goods  
store after her few months absence  
at Oyama, where she has been em-  
ployed in the packing house.

Everyone was very pleased to see  
T. Morton on the streets on Satur-  
day, after his serious illness.

Mr. and Mrs. Arthur Dill have  
spent a few days hunting deer this  
week and report "seeing" but not  
"bagging" any game.

The many friends of Mrs. C.  
Richards are very pleased to see  
her around again after her illness  
of a few weeks.

The St. Andrew's United Church  
choir have added several new  
junior members to help with the  
singing of the Christmas music.

Miss Eileen Morton has been ac-  
cepted as nurse on the permanent  
staff of the Enderby General Hos-  
pital.

Henry Fredrick, who has been re-  
ceiving medical care in the Ender-  
by General Hospital for a short  
time, was able to leave for his home  
this week.

J. Gihbart returned to his home  
at Mara this week after being con-  
fined in the Enderby General Hos-  
pital for a short time.

Mr. and Mrs. Bruhn, of Sicamous,  
passed through Enderby on Thurs-  
day afternoon.

G. E. McMahon had the mis-  
fortune to get his car stuck in the  
deep snow about half way up the  
Mabel Lake road on a recent even-  
ing. Mr. McMahon was returning  
home after taking his daughter,  
Miss Marjorie McMahon, who had  
spent the week end in Enderby, back  
to Kingsfisher. He was, however, un-  
able to return home with his car.  
Mr. McMahon and E. Sparrow, who  
also accompanied him, were forced  
to walk to the Dale place, where  
they were able to obtain trans-  
portation back to town.

## SPALLUMCHEEN IS GRANTING \$500 IN ASSISTANCE TO FAIR

No Relief Will Be Paid To  
Those Living Outside  
Municipality

ARMSTRONG, B.C., Nov. 22.—The  
regular meeting of the Spallumcheen  
Municipal Council held on Satur-  
day afternoon, November 13, in the  
Municipal Hall with all the coun-  
cillors in attendance and Reeve  
Noble presiding, had a somewhat  
prolonged session before the business  
in hand was disposed of.

The Interior Provincial Fair As-  
sociation interim report having  
shown there was a loss on the year's  
operations the council was requested  
to give the full \$500 grant. The  
council had made a grant of \$250,  
but, if there was a loss, they would  
give a grant of \$500, it had been  
understood. The council unanim-  
ously voted the \$500 grant to be  
given to the Association.

J. Peters interviewed the council  
with regard to snow plows. Mr.  
Peters showed a model of a plow  
and explained with considerable de-  
tail how the plow would be operated  
and the advantage it had over the  
see-shaped plow which only pushed  
the snow to the side while the plow  
he demonstrated would lift the snow  
up and throw it out.

The matter was discussed at con-  
siderable length, all the mem-  
bers of the council taking part and  
they finally ordered one double-mold  
board plow.

The inspection of the Larkin road  
was reported and acting on the re-  
port of the Council approved of the  
closing of the Larkin road crossings.  
Reeve Noble along with Councillors  
McCallum and McDonald were  
appointed to act on the court of  
revision for the 1938 voters' list, the  
court to be held on December 3.  
T. Y. Andrews was appointed  
returning officer for the impending  
municipal elections.

Completion of the agreement with  
A. E. Fear as to the acquisition of  
the right of way for road purposes  
was reported.

The Steele Springs water system  
which had been given a grant for  
the pipe required to be moved off  
the road asked for an additional  
grant as the cost of the pipe had  
exceeded the estimate. The in-  
stantial sum asked for was unani-  
mously granted.

A prolonged discussion on relief  
took place, the cases of several par-  
ties who had moved away from  
the municipality being particularly  
mentioned and the council main-  
tained their attitude that no relief  
would be paid where the parties re-  
sided outside the municipality.

The clerk reported that \$428.83  
interest on the Swensen bequest had  
been received and the council auth-  
orized the payment of the moneys  
to the Interior Provincial Fair As-  
sociation.

The official school trustee re-  
quested the council to have signs put  
up at the top and foot of the cork-  
creek road to notify that the school  
bus used the road at certain times.  
Councillor McDonald was authorized  
to have the necessary signs erected.

The various councillors were given  
authority to place orders for  
cord wood to the amount of 30  
cords each at the price of \$3.50 per  
cord. The cord wood is for the  
schools and this method of getting  
the wood is the same as was fol-  
lowed last year.

In connection with the diversion  
of the Fear road a small piece of  
land would be required to be taken  
from the Pringle property and the  
council authorized the payment of  
\$20 for a release of the necessary  
land.

More than 720,000 cases of can-  
ned red salmon were produced in  
Japan in 1937.

S. Speers' customers are glad to  
again welcome Miss Hazel Ulas be-  
hind the counter in his dry goods  
store after her few months absence  
at Oyama, where she has been em-  
ployed in the packing house.

Everyone was very pleased to see  
T. Morton on the streets on Satur-  
day, after his serious illness.

Mr. and Mrs. Arthur Dill have  
spent a few days hunting deer this  
week and report "seeing" but not  
"bagging" any game.

The many friends of Mrs. C.  
Richards are very pleased to see  
her around again after her illness  
of a few weeks.

The St. Andrew's United Church  
choir have added several new  
junior members to help with the  
singing of the Christmas music.

Miss Eileen Morton has been ac-  
cepted as nurse on the permanent  
staff of the Enderby General Hos-  
pital.

Henry Fredrick, who has been re-  
ceiving medical care in the Ender-  
by General Hospital for a short  
time, was able to leave for his home  
this week.

J. Gihbart returned to his home  
at Mara this week after being con-  
fined in the Enderby General Hos-  
pital for a short time.

Mr. and Mrs. Bruhn, of Sicamous,  
passed through Enderby on Thurs-  
day afternoon.

G. E. McMahon had the mis-  
fortune to get his car stuck in the  
deep snow about half way up the  
Mabel Lake road on a recent even-  
ing. Mr. McMahon was returning  
home after taking his daughter,  
Miss Marjorie McMahon, who had  
spent the week end in Enderby, back  
to Kingsfisher. He was, however, un-  
able to return home with his car.  
Mr. McMahon and E. Sparrow, who  
also accompanied him, were forced  
to walk to the Dale place, where  
they were able to obtain trans-  
portation back to town.

## ULTRA-MODERN HOTEL LOBBY UTILIZED FOR MOTION PICTURE SET

The ultra-modern Seabreeze Re-  
sort Hotel shown in the Hal Roach-  
M-G-M feature comedy, "Topper,"  
coming on Monday and Tuesday,  
November 29 and 30, to the Empress  
Theatre, represents one of the large-  
est and most complete interior sets  
to come out of Hollywood.

To reproduce the entire main  
floor of a fashionable hostelry, all  
space of a new sound stage—180  
feet long, 120 feet wide and 40 feet  
high and 40 feet high—was utilized.  
The design incorporates modern  
classics in architecture and the  
furnishings and decorating intro-  
duce a number of futuristic fea-  
tures.

Constance Bennett and Gary  
Grant as the gay ghosts with Rol-  
and Young as "Cosmo Topper" and  
Eugene Pallette as "Casey," the  
house detective, stage a series of  
hilariously funny and thrilling  
scenes in the Seabreeze Resort  
Hotel. The set was dressed with  
several hundred fashionably-gown-  
ed women and formally-attired  
men.

J. Peters interviewed the council  
with regard to snow plows. Mr.  
Peters showed a model of a plow  
and explained with considerable de-  
tail how the plow would be operated  
and the advantage it had over the  
see-shaped plow which only pushed  
the snow to the side while the plow  
he demonstrated would lift the snow  
up and throw it out.

The matter was discussed at con-  
siderable length, all the mem-  
bers of the council taking part and  
they finally ordered one double-mold  
board plow.

The inspection of the Larkin road  
was reported and acting on the re-  
port of the Council approved of the  
closing of the Larkin road crossings.  
Reeve Noble along with Councillors  
McCallum and McDonald were  
appointed to act on the court of  
revision for the 1938 voters' list, the  
court to be held on December 3.  
T. Y. Andrews was appointed  
returning officer for the impending  
municipal elections.

Completion of the agreement with  
A. E. Fear as to the acquisition of  
the right of way for road purposes  
was reported.

The Steele Springs water system  
which had been given a grant for  
the pipe required to be moved off  
the road asked for an additional  
grant as the cost of the pipe had  
exceeded the estimate. The in-  
stantial sum asked for was unani-  
mously granted.

## 100,000 Ex-Canadians In Los Angeles Offer Good Market For Macs

Experiment Conducted This Season Opens Up Broad Opportunity

**YAKIMA SHIPPER URGES "QUALITY"**

Washington Commission Issues Circular On Canadian Arrivals

The fact that there are 100,000 Canadian-born people resident in Los Angeles and environs may greatly assist the sale of B.C. McIntosh Reds in that section of California.

The strong effort that has been made this season to introduce this Okanagan variety to buyers far south of the line will be continued in other seasons, and particular attention will be directed towards interesting former Canadian residents, who live in large numbers around Los Angeles, in supporting a product grown in the country where they formerly made their home.

At the same time, shippers and Fruit Board members recognize, the primary appeal must be directed towards the rare quality and unique character of the famous "McIntosh Red," which is grown only in B.C. so far as western North America is concerned.

Los Angeles has already responded well to trial shipments of Okanagan Macs, two cars of which were sold there this season. This may be a commentary on the number of Canadians resident there, for another car sent to San Francisco, where there is not so large a Canadian "colony," did not fare so well. There are other factors, however. It is admitted that the fruit sent to Los Angeles turned out to be of better quality than that sent to San Francisco. And there is another point perhaps constantly weighing against the popularity of Canadian apples in San Francisco—the fact that not far from that city are tracts of land given over to cultivation of California apples, a condition that does not obtain farther south in the Los Angeles area.

**YAKIMA OPINION**  
"You have Macs up there that if put up properly and then properly transported will create a demand, provided they are not shipped or consigned to the wrong distributor whose interest is not to have the fruit go over."

This is the comment made by A. Barnes Raymond, now a fruit shipper of Yakima, Wash., well known in this city, and indeed one who can be called a "Vernon boy."

In a communication to The Vernon News, Mr. Raymond says that he "has for several reasons been quite interested in the venture the Canadian Okanagan growers and shippers undertook this year to market their apples in the Los Angeles market. It was noted by shippers around (Yakima), that the article that appeared in your issue related to this venture being made for the first time. The error of this first time statement was noted perhaps by the writer because of the fact that back in 1926 I personally returned to Vernon to purchase several cars for the Piggy Wiggle Corporation and some of these shipment I sent and personally sold in Los Angeles, being located there as the Piggy Wiggle buyer."

"What I have in mind in sending you this letter and information mostly is to enlighten your growers that there are several very important things that must be taken into account when one enters into a foreign market and especially one like Los Angeles."

"Don't try to establish a brand or its fruit with anything but first class merchandise. Don't listen to would-be sales managers or would-be growers' representatives. The growers themselves should find out first hand the kind of fruit and standard of packs they are going into a market to compete against and then decide whether or not they truthfully have the standard and quality to enter into that competition of the market they want to explore."

"The Macs I bought and merchandised in Los Angeles went over well and quickly. They were shipped all the way under proper refrigeration and properly merchandised at the receiving end. The price was kept low so they would move and not just be admired on display. It is better to take a small loss on selling fruit in sound condition and pleasing to the consumer, than have to take a heavy loss salvaging poor quality fruit that every apple establishment has had impression with every bite. Your would-be sales managers up there should know this but when they are perhaps advised by some thick headed 'foreigners from England,' you can see perhaps why I say it is too bad the B.C. Mac does not get a better break."

Enclosed in Mr. Raymond's communication to The Vernon News was a bulletin from the Washington State Apple Advertising Commission, at Wenatchee.

This bulletin stated: "Two carloads of Canadian McIntosh shipped into Los Angeles were being sold at \$2.75 per box, but were not moving as the price was too high and the quality bad; the apples invariably became mushy after 3 or 4 days on the stands."

Mr. Raymond instanced this in suggesting that the right tactics

## ALDERMAN A. C. WILDE OUTLINES STAND ON PURCHASE OF CEMENT

Again Refutes Charges That He "Snaffled" Order For Ten Cars

Repercussions of the recent bitter discussion regarding awarding of a contract to supply the city with ten carloads of cement were heard at Monday evening's City Council session as Alderman A. C. Wilde, the central figure in a debate, further outlined his stand that all transactions in this connection were perfectly in order.

Alderman A. E. Berry's statement that Alderman Wilde had "snaffled" the order for cement while the Council was asleep, was once again the focal point of the latter's refutation of the charges. Several times during the discussion he declared that numerous people on Barnard Avenue are still of the opinion that there was something "crooked" done by the Council, and that blame for this impression was due directly to Alderman Berry's remarks.

Alderman Wilde referred only briefly to a letter in The Vernon News of November 18 signed by Henry G. Moses which expressed pointed opinions on the controversy. He declared he had never been in the habit of writing letters and was not going to start now, evidently implying that the communication was not worth bothering with.

On March 18 last, as manager of the Fletcher Wilde Hardware Ltd., he had tendered on one car of cement as asked to do by the City Clerk, Alderman Wilde said.

At the Council meeting of March 29, his bid, the lowest submitted, was accepted. He had been asked at that time how long the price he quoted could be guaranteed. He wired Vancouver and received assurance that the figure would be good for ninety days, and he so reported on April 5, Alderman Wilde continued.

On April 6 it was decided that cement would be needed. Alderman Wilde declared that Alderman Berry had moved that the Fletcher Wilde Hardware be given the whole order. Vigorous objection to this statement was at this point entered by Alderman Berry, and the minutes of the meeting were consulted. It was found that the ordering of the cement was left in the hands of the City Clerk, as it was not definitely known exactly how much would be required. When this point was definitely known, Alderman Wilde apologized to Alderman Berry for his statement.

Within a few days after April 15, Alderman Wilde received a letter from the clerk, asking him to supply ten cars. This communication was produced for the Council's inspection, and other letters relating to the incident.

Alderman Berry once more advanced the contention that new tenders should have been called for the ten carloads, irrespective of the fact that Alderman Wilde's bid was low.

He further suggested that there might have been a difference in price between figures for one and ten cars. This was not supported by Alderman Wilde, who declared that the price charged dealers was in direct proportion for one sack or 100. Getting tenders lowered simply meant cutting into profits, he indicated.

At this juncture Alderman C. J. Hurt spoke in support of Alderman Wilde, declaring that in his opinion it was unnecessary to ask for new figures. "He had a perfect right to the ten cars," Alderman Hurt declared.

Various other verbal jousts were passed with vigor between Alderman Wilde and Berry. The discussion drew to a close with Alderman Berry's declaration that "all this trouble came about because of Alderman doing business with the city of Vernon. I for one am going to refrain from doing business with the city as long as I sit in this chair. It's little business I do anyhow," he added.

The tangled discussion was closed by Mayor E. W. Prowse, and the Council passed on to consideration of regular business.

## HASHIM'S THINGS TO GIVE

Everything is ready for Christmas at Hashim's store, which is full of lovely things.

Giving is no longer a task but a pleasure. For a few cents or as many dollars you can find what you want at Hashim's.

## Nerves on Edge

From loss of sleep

Sleeplessness is the most persistent symptom of exhausted nerves. You may have headaches or nervous indigestion. You may be restless and irritable and constantly worried over things that do not really matter. All these symptoms wear down the nerve force and if you cannot sleep, there is no chance to regain nervous energy and vigor.

Why not give Dr. Chase's Nerve Food a chance to help you? It has helped many thousands of others and should do as much for you. It is not a narcotic to merely induce sleep but a restorative which will enable you to regain the vigor of the nervous system and free yourself of the condition which is making life a burden for you. You will not be bounding it long before you will understand why there is so much enthusiasm about this food treatment.
